It does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.

2.4 Risk Factors

Potential investors should be aware that subscribing for Shares in the Company involves a number of risks. The key risk factors of which investors should be aware are set out in Section 6 of this Prospectus. These risks together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of the Shares in the future. Accordingly, an investment in the Company should be considered highly speculative. Investors should consider consulting their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

2.5 Overseas Investors

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and therefore persons into whose possession this document comes should seek advice on and observe any such restrictions. Any failure to comply with these restrictions constitutes a violation of those laws. This Prospectus does not constitute an offer of Shares in any jurisdiction where, or to any person to whom, it would be unlawful to issue in this Prospectus.

2.6 Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of our Company, the Directors and our management.

We cannot and do not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

These forward looking statements are subject to various risk factors that could cause our actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 6 of this Prospectus.

Any information not so contained may not be relied upon as having been authorised by the Company or any other person in connection with the Offer. You should rely only on information in this Prospectus.

3. DETAILS OF THE OFFER

3.1 Offer

Under this Prospectus, the Company invites investors identified by the Directors to apply for up to 1,000 Shares at an issue price of \$0.01 per Share to raise up to \$10 (before expenses).

The Offer will only be extended to specific parties on invitation from the Directors. Application Forms will only be provided by the Company to these parties.

All of the Shares offered under this Prospectus will rank equally with Shares on issue at the date of this Prospectus.

3.2 Objective

The Company is seeking to raise only a nominal amount of \$10 under this Prospectus and, accordingly, the purpose of this Prospectus is not to raise capital.

The primary purpose of this Prospectus is to remove any trading restrictions that may have attached to Shares issued by the Company prior to the Closing Date.

Relevantly, section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and
- (b) either:
 - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

3.3 Application for Shares

Applications for Shares must be made by investors at the direction of the Company and must be made using the Application Form accompanying this Prospectus.

Payment for the Shares must be made in full at the issue price of \$0.01 per Share.

Completed Application Forms and accompanying cheques must be mailed or delivered to the Company as follows:

Delivery by hand	Delivery by post
Level 1 83 Havelock Street West Perth WA 6005	Level 1 83 Havelock Street West Perth WA 6005

Cheques should be made payable to “**88 Energy Limited – Share Offer Account**” and crossed “**Not Negotiable**”. Completed Application Forms and cheques must reach the address set out above by no later than the Closing Date.

3.4 Minimum subscription

There is no minimum subscription.

3.5 Issue of Shares

Issue of Shares under the Offer will take place as soon as practicable after the Closing Date. Application moneys will be held in a separate subscription account until the Shares are issued. This account will be established and kept by the Company in trust for each Applicant. Any interest earned on the application moneys will be for the benefit of the Company and will be retained by the Company irrespective of whether any Shares are issued and each Applicant waives the right to claim any interest.

The Directors will determine the recipients of all the Shares. The Directors reserve the right to reject any application or to allocate any Applicant fewer Shares than the number applied for.

Where the number of Shares issued is less than the number applied for, the surplus moneys will be returned by cheque as soon as practicable after the Closing Date. Where no issue of Shares is made, the amount tendered on application will be returned in full by cheque as soon as practicable after the Closing Date. Interest will not be paid on moneys refunded.

3.6 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days of the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

3.7 Restrictions on the distribution of the Prospectus

The distribution of this Prospectus outside the Commonwealth of Australia may be restricted by law.

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed should they wish to make an application to take up Shares on the basis of this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

Any questions concerning the Offer should be directed to the Company Secretary, on +61 8 9485 0990.

5. RIGHTS AND LIABILITIES ATTACHING TO SHARES

The following is a summary of the more significant rights and liabilities attaching to Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

5.1 General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

5.2 Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (a) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

5.3 Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

5.4 Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

5.5 Shareholder liability

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

5.6 Transfer of shares

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

5.7 Future increase in capital

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

5.8 Variation of rights

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

5.9 Alteration of constitution

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

6. RISK FACTORS

6.1 Introduction

The Shares offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

6.2 Company specific

(a) Joint Venture Counterparty risk

The Company, via its subsidiary Energy Alaska, holds a participating interest in the Icewine Project together with Burgundy Xploration, LLC (BEX) discussed further below at section 6.2(j). These parties contribute to the Icewine Project in accordance with a joint development agreement and a joint operating agreement. If BEX fails to comply with its contractual obligations there is a possibility, depending on the nature of the breach, that title to leases could be forfeited or fines or other sanctions imposed. The Company has no current reason to believe that BEX will not meet and satisfy its obligations under those agreements.

(b) Oil & Gas Exploration

Oil and gas exploration is a high risk, speculative activity that requires a large amount of expenditure over extended periods of time. There is no guarantee that exploration will result in commercial discoveries.

Technical conclusions during exploration, appraisal and production are subject to the uncertainties associated with all sampling techniques and to the risk of incorrect interpretation of geological, geophysical, drilling and other data.

(c) Bank of America funding

As announced on 24 June 2015, the Company has entered into a conditional agreement and executed a non-binding letter of intent with Bank of America. Pursuant to this loan facility, Bank of America is to provide a funding facility for up to US\$50m for specific projects, approval for which will be at Bank of America's sole discretion.

As funding under the loan facility is at the sole discretion of the Bank of America, there is a risk that the Company may not be able to access this funding for the purposes (or timing) it requires or that the Company's intended drilling and exploration program may be hindered or tailored towards satisfying the Bank of America. This may be less favourable to

the Company and may hinder the ability of the Company to exploit its projects to the extent currently planned.

If the Company cannot draw on funding pursuant to the loan facility (or any other possible form of financing), the Company may not be in a position to undertake currently planned activities and may need to raise additional funds to finance its activities in the future.

(d) **Future capital requirements**

In addition to the Bank of America Funding, it is likely that the Company will need to raise additional funds to finance its activities in the future.

The Company may seek to raise further funds through equity or debt financing, joint ventures, production sharing arrangements or other means. There can be no guarantee that the Company will be able to raise that finance on acceptable terms or in a timely manner. Any additional equity financing will dilute shareholdings and debt finance, if available, may restrict financing and operational activities. If the Company is unable to obtain funding as needed, the Company may have to reduce the scope of its activities.

(e) **Reliance on Key Personnel**

The responsibility of overseeing the day to day operations of the Company and its business strategy moving forward depends substantially on the Directors and, in particular, the Managing Director, Mr David Wall. There can be no assurance that there will be no detrimental impact on the Company if one of the Directors was to leave.

(f) **Government policy changes**

The Company is reliant on the generous cash rebates from the State Government of Alaska to assist with its exploration payments. Whilst these rebates are currently legislated there is no guarantee that the legislation will not change. Adverse changes in these or other government policies or legislation may affect the amount, payment or timing of these cash rebates.

(g) **Infrastructure Access Risks**

Exploration and operational activities carry risk and as such, activities may be curtailed, delayed or cancelled as a result of weather conditions, non-access to critical infrastructure, mechanical difficulties, shortages and/or delays in the delivery of drill rigs or other equipment.

(h) **Government Regulation**

The oil and gas business is subject to extensive governmental regulation.

Governmental agencies may impose a moratorium on certain exploration, drilling or other regulatory initiatives where the Company conducts operations could have a material adverse effect the Company's business. Governmental regulations relating to environmental matters could also affect the Company's exploration programmes and/or operations.

The nature and extent of various regulations, the nature of other political developments and their overall effect upon the Company are not predictable.

(i) **Debt servicing and refinancing risk**

The Company has entered into a conditional agreement and executed a non-binding letter of intent with Bank of America for a US\$50m funding facility; however the Company currently has no debt facilities in place, drawn or otherwise.

Should the Company enter into and/or draw on any debt funding facilities in the future the Company;

- will likely be required to provide security interest in all assets of the Company;
- may not be able to service its debt obligations if certain company, industry and/or general conditions deteriorate; and
- may require to undertake further debt and/or equity issues to service debt or refinance.

(j) **Title**

As referred to in paragraph 6.2(a) above, the Company has a participating interest in the Icewine Project. As previously announced, the Company is currently in the process of transferring the title for the Icewine Project. The current status of the title update process is as set out in the Company's announcement of 9 July 2015.

Whilst the Company has submitted the relevant documents to the State of Alaska, these title transfers have not yet been granted. Until these transfers have been granted, there remains a risk that these transfers will not be received or their approvals will be delayed. However, as the process is largely administrative in nature, the Company has no reason to believe that the transfers will not be granted and has also received legal advice to the effect that any risk is minuscule bordering on non-existent.

(k) **Contractual Risk**

The Company's ability to efficiently conduct its operations in a number of respects depends upon a number of contracts. As in any contractual relationship, the ability for the Company to ultimately receive the benefit of the contract is dependent upon the relevant third party complying with its contractual obligations. To the extent that such third parties default in their obligations, it may be necessary for the Company to enforce its rights under any of the contracts and pursue legal action. Such legal action may be costly and no guarantee can be given by the Company that a legal remedy will ultimately be granted on appropriate terms.

(l) **Litigation Risk**

Legal proceedings may also arise from time to time in the course of the Company's business. The Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim

or dispute, if proven, may impact adversely on the Company's operations, financial performance and financial position.

(m) **Unforeseen Expenditure Risk**

Expenditure may need to be incurred which has not been taken into account in the preparation of this Prospectus. Although the Company is not aware of any such additional expenditure requirements, if such expenditure is subsequently incurred, this may adversely impact budgeted expenditure proposals by the Company.

6.3 Industry specific

Potential investors should understand that oil and gas exploration, development and production activities are high risk undertakings and are subject to a number of inherent risks including the following:

(a) **Petroleum volatility**

In the event that the Company acquires and/or invests in a new oil and gas project its financial performance will be sensitive to the price of oil and gas, which is dependent on numerous factors, some beyond the control of the Company. These factors include global costs of production, availability of infrastructure, regional and global economic activity, regional and world demand for petroleum products and political trends.

(b) **Currency risk**

The international price of oil and gas is generally denominated in US dollars; whereas the Company reports its financial results in Australian dollars. This will expose the Company to the fluctuation and volatility of the exchange rate between the US dollar and the Australian dollar, subject to any currency hedging the Company may undertake. The exchange rate is affected by numerous factors beyond the control of the Company including international markets, interest rates, inflation and the general economic outlook.

(c) **Environmental risks**

The operations of the Company are subject to laws and regulation concerning the environment. As with most oil and gas exploration projects and production operations, the Company's activities are expected to have an impact on the environment, particularly if production proceeds. The Company seeks to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

(d) **Sovereign risk**

Investment in a foreign country can always carry regulatory and administrative risks. Any material adverse change in government policies, legislation, regulation or the processes which affect the current and/or future activities of the Company may affect the viability and profitability of the Company.

(e) **Results may differ materially from estimates**

Interpretations and estimates of the prospectivity of the Company's projects, and the costs and timing associated with exploring and potentially developing those projects may not be accurate. Exploration and potential development of the Company's projects may not yield expected results, or there may be delays or cost overruns which could adversely affect exploration and operational results and the Company's financial position.

(f) **Joint venture, parties, agents, and contractors**

There can be no assurance that parties with whom the Company has entered into or will enter into commercial arrangements will adhere to the terms of the contracts and arrangements. Failure by parties to adhere to current and future contractual arrangement could have a material adverse impact on the Company's operations. There is the potential of material failure by or insolvency of any contractor used by the Company in any of its current or future activities. Such being the case, this could cause disruption to the operations of the Company. The Company is unable to predict the risk of insolvency or other managerial failure by any of its contractors or other service providers used by the Company to carry out its current or future activities.

6.4 General risks

(a) **Economic**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

(b) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) **Competition risk**

The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

(d) **Dilution Risk**

The Company may require further financing in addition to amounts raised under the Offer in the future. If any additional funds are raised through the issue of further securities, Shareholders voting and relevant interest in the Company may be diluted if they do not participate in the Offer.

(e) **Management Actions**

The Directors will, to the best of their knowledge, experience and ability (in conjunction with management) endeavour to anticipate, identify and manage the risks inherent in the activities of the Company, but without assuming any personal liability for same, with the aim of eliminating, avoiding and mitigating the impact of risks on the performance of the Company and its securities

6.5 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Shares offered under this Prospectus

Therefore, the Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares.

7. ADDITIONAL INFORMATION

7.1 Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company’s securities.

This Prospectus is a “transaction specific prospectus”. In general terms a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on the Company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the annual financial report most recently lodged by the Company with the ASIC;
 - (ii) any half-year financial report lodged by the Company with the ASIC after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC; and

- (iii) any continuous disclosure documents given by the Company to ASX in accordance with the ASX Listing Rules as referred to in section 674(1) of the Corporations Act after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company or an ASIC office during normal office hours.
