

11 JUNE 2018

PROJECT UPDATE

Hummingbird Resources Plc (Hummingbird) – Yanfolila

African Mining Services (AMS), a wholly owned subsidiary of Ausdrill (**ASX: ASL**) has confirmed that following the recently advised security incident, mining operations at Yanfolila are now operating at full capacity and development works have commenced at the Komana West deposit.

Process Minerals International Pty Ltd (PMI) - Wodgina

Contract negotiations with respect to the Wodgina project continue with PMI. Whilst we remain in discussions with PMI regarding the contract scope and possible opportunities beyond the Wodgina project, we now expect the value of the contract to be approximately half the previously announced \$180 million over the initial three years.

Kalgoorlie Consolidated Gold Mines (KCGM) – Super Pit

Ausdrill advises that due to the recent wall failure at the Super Pit, our scope of works has currently reduced by 35% whilst the client reviews the longer-term mine planning. At this stage, it is difficult to provide a definitive timeframe for the reduction and we continue to work closely with KCGM as they develop their future plans.

About Ausdrill

Ausdrill (ASX: ASL) is a diversified mining services company. Since its formation in Kalgoorlie in 1987, Ausdrill has grown significantly and now has operations across Australia, Africa and the United Kingdom. Ausdrill is a leader in providing services in contract mining, grade control, drill & blast, exploration, mineral analysis, procurement & logistics. The Ausdrill Group employs over 5,000 staff worldwide.
