**SIGATOKA IRONSANDS PROJECT – RENEWAL OF SPL 1495**

---

Dome Gold Mines Limited (“Dome” or “the Company”) (ASX: DME) is pleased to announce that Special Prospecting Licence (SPL) 1495 (Sigatoka Ironsands Project) has been renewed by the Mineral Resources Department (MRD) in Fiji for a further three year period, subject to Dome completing normal formalities involved in the issue of an SPL. The SPL is held by the Company through its 100% wholly owned subsidiary, Magma Mines Ltd.

Dome now proposes to move as quickly as possible to finalise and submit an application for a Mining Licence at Sigatoka.

For further information about Dome and its projects, please refer to the Company’s website [[www.domegoldmines.com.au](http://www.domegoldmines.com.au)] or contact the Company at (02) 8203 5620.

J V McCarthy  
Chief Executive Officer

**ABOUT DOME**

Dome is an Australian mining company, which listed on the ASX on 22 October 2013. The Company is focussed on gold, copper and mineral sands in Fiji, where it holds four highly prospective exploration tenements. The Company’s objective is to become a major force in the mining industry of Fiji by the discovery and development of mineral resources within its Fijian tenements.

On 25 August 2014 Dome shareholders approved the merger of Dome with Magma Mines Ltd, owner of the Sigatoka project and this is now the Company’s flagship project in Fiji. Sigatoka is a mineral sand project containing abundant heavy metals including magnetite. Drilling to establish an interim resource estimate for the project has been completed, and further drilling is expected to enhance the resource base substantially. Commencement of production at Sigatoka by conventional dredging and wet processing is anticipated within two years.

Our other projects are the Nasivi-Yaqara Delta heavy mineral sand project, the Ono Island epithermal gold project, which bears similarities to the Emperor Gold Mine at Vatukoula, and Nadrau porphyry copper-gold project, which may be like that at the nearby Namosi Project.

Dome’s Board and Management team has a high level of experience in Fiji, and Dome has been actively exploring in Fiji since 2008.
