FULL YEAR STATUTORY ACCOUNTS 2019

## **Directors' Report**

The Directors of Pancontinental Oil & Gas NL ("Pancontinental" or the "Company") submit their report for the year ended 30 June 2019.

## DIRECTORS

The names and details of the company's Directors in office during the financial year and until the date of this report are as follows. Directors were in office for this entire period unless otherwise stated.

## Names, qualifications, experience and special responsibilities

Henry David Kennedy MA (Geology), SEG (Non-Executive Chairman)

Mr Kennedy is a Geologist with a long history in Australian and New Zealand oil and gas companies. During his time as a technical director he was instrumental in the formation and development of a number of successful listed companies. These companies were involved in numerous discoveries in Western Australia and New Zealand. At Pancontinental, Mr Kennedy has used his wide knowledge base to assist with the strategic direction of the company. Mr Kennedy has been a director of Pancontinental since August 1999.

Mr Kennedy is currently a Non-Executive Director of Norwest Energy NL (since April 1997).

#### Ernest Anthony Myers CPA (CEO & Executive Director)

Mr Myers, an Accountant by profession, has held senior management and executive roles within a number of ASX listed companies. During his career he has been instrumental in the capital raisings and financial management of these companies. He has played a key role in managing the Group's African portfolio. Mr Myers joined Pancontinental in March 2004, was appointed Executive Director in January 2009 and Chief Executive Officer in November 2018.

Mr Myers is currently also Non-Executive Chairman of Norwest Energy NL (since November 2018).

#### Roy Barry Rushworth, BSc (Non-Executive Director)

Mr Rushworth is a Geologist who brings extensive experience in petroleum exploration to the Company. Commencing with positions in exploration operations, his career then extended to the role of Chief Geologist and Exploration Manager for an Australian listed company. A number of oil and gas discoveries were made by the company during that time. More recently, Mr Rushworth has been responsible for identifying, negotiating and acquiring international new venture opportunities in Malta, Kenya, Morocco and Namibia.

Mr Rushworth has been a director of Pancontinental since August 2005.

Marie Michele Malaxos BE, Dip Bus, GAICD (Non-Executive Director)

Ms Malaxos has been a professional executive in the resources sector for over 25 years, with involvement in all aspects of the development and operation of oil and gas fields including commercial and budget control, technical management and approval, stakeholder liaison, environmental management, health and safety management and assessment of assets for sale and purchase.

Ms Malaxos was appointed to the Board of Pancontinental Oil & Gas NL as a Non-Executive Director in July 2017.

Vesna Petrovic, BComm, CPA (Executive Director & Company Secretary)

Mrs Petrovic is an Accountant who holds a Bachelor of Commerce, Major in Accounting and Business Law and has completed the Graduate Diploma in Applied Corporate Governance from the Governance Institute of Australia.

Roles in accounting and finance of numerous publicly listed entities, particularly those involved in Africa have provided Mrs Petrovic a base from which to contribute to the accounting and governance functions at Pancontinental.

Mrs Petrovic was appointed Company Secretary in April 2010, Executive Director in December 2016, Alternate for Mr Kennedy in July 2017 and reappointed Executive Director in September 2018.

## FORMER DIRECTOR

The Directors discussed and agreed various matters throughout the financial year which were resolved by circular resolution; 9 matters were dealt with in such a manner during the year.

## **CORPORATE INFORMATION**

## **Corporate structure**

Pancontinental Oil & Gas NL (ACN 003 029 543) is a no liability company incorporated and domiciled in Australia. The Company's registered office is at Level 1, 10 Ord Street, West Perth WA 6005.

## Nature of operations and principal activities

The principal activity during the year of entities within the consolidated entity was exploration for oil and gas.

There have been no significant changes in the nature of those activities during the year.

## **Objectives**

Objectives of the group include:

- Continue exploration on the company's current portfolio of permits;
- Extract value from the Company's asset base;
- Seek new ventures suitable for inclusion in the group's asset structure;
- Manage risks involved in the exploration industry; and
- Maintain liquidity.

The group's targets and strategies for meeting the above objectives include:

- Approve work programmes best suited for exploration success which are within the Company's financial capacity;
- Consider strategic alliances through joint ventures to minimise risks to the group;
- Focus on cost cutting in all non-essential areas; and
- Review appropriate fundraising proposals.

## **OPERATING AND FINANCIAL REVIEW**

## **Projects**

## Namibia PEL 87 – Offshore [75% interest]

Pancontinental has held the PEL 87 licence for less than two years and within that time has fast-tracked an exploration programme which has yielded impressive results to date. The Petroleum Agreement is over a large, offshore exploration area in the Orange Basin. Pancontinental is the project Operator, with a 75% interest.

The Company has focused its resources on working up the oil potential of this area and has already spent over US \$1 million on seismic data acquisition alone. The largest of the prospective Plays identified so far is a Cretaceous (Late Aptian) turbidite fan system known as the "Saturn Superfan". This fan system is interpreted to contain a number of individual Leads whilst also having the potential to be one, vast, single oil trap due to the structure being overlaid by sealing shale.

The oil potential in the licence area has been independently assessed and Pancontinental is currently seeking farminees for an accelerated 3D seismic and drilling programme.

## Namibia PEL 37 – Offshore [20% interest]

Pancontinental holds a 20% interest in the PEL 37 project through an interest (66.67%) in subsidiary Pancontinental Namibia Pty Ltd. During the previous financial year, Africa Energy Corp. committed to an investment of US \$7.7 million in Pancontinental Namibia Pty Ltd for a 33.33% shareholding, equating to 10% of PEL 37. US \$2.2 million was received at the close of the transaction with the balance of US \$5.5 million received at the spud of the Cormorant-1 well in September 2018. The total investment of US \$7.7 million equates to AU \$10 million.

Pancontinental announced the spud of the Cormorant-1 well in PEL 37, Offshore Namibia on 4 September 2018. Cormorant-1 was drilled by the Ocean Rig Poseidon, a 6<sup>th</sup> Generation drillship, in 545 meters of water. The well tested the oil potential of a mid-Cretaceous marine turbidite "fan" sandstone system. On 24 September 2018, Pancontinental advised that the Cormorant-1 exploration well reached a total measured depth of 3,855m and is to be plugged and abandoned as a dry hole. The Company was not financially exposed to the drilling costs of the well as per the previously negotiated farmout agreement with operator Tullow Namibia Pty Ltd (a subsidiary of Tullow Oil plc).

A number of other major Turbidite Prospects including Albatross are closer to the oil source rocks than Cormorant. The merits of each of these Prospects, in combination with the drilling results, will be assessed going forward.

With the seismic and drilling programmes complete, Pancontinental and its joint venture partners have satisfied all the work programme conditions which form part of the exploration licence for the period ending March 2020.

## Kenya L6 [40% offshore, 16% onshore]

Pancontinental holds an interest in the L6 block onshore/offshore Kenya. The company has been a participant in the block since its award and has completed various work programmes in joint venture over the area.

Due to uncertainties over the security of field operations in this area, activity has been suspended.

## **Termination of the Walyering Farmin**

By acquisition of a new subsidiary in 2017, Pancontinental obtained the right to farmin to the Walyering Project within Exploration Permit 447, in the Perth Basin. The farmin partners have not been able to agree a way forward to complete the 3D seismic survey required under the agreement, and as such it was decided to terminate the farmin agreement.

While the decision to exit Walyering is disappointing the Company feels that it is the right decision under the existing farmin terms relative to the market of the day.

## Subsequent Event - Queensland Australia ATP 920 & 924

Post quarter end, Pancontinental announced that it had signed a binding term sheet to farmin to two large exploration permits, ATP 920 and the Ace Area of 924 in the Cooper Basin, Queensland. The farmin acreage contains conventional trends which are prospective for both oil and gas with initial drilling (anticipated to be in Q4 2019) to be focussed on the oil prone acreage.

## **Corporate**

## **Management Changes**

Director Ernie Myers was appointed CEO and Executive Director during the financial year. Mr Myers joined Pancontinental in March 2004, was appointed Executive Director in January 2009 and CEO in November 2018.

Director Barry Rushworth is now the Company's Technical Director.

Former CEO and Executive Director John Begg stepped down from the role on 15 November 2018 and resigned from the Company post year end on 5 August 2019.

On 5 September 2018, Pancontinental announced that Company Secretary and CFO Vesna Petrovic was appointed back to the Board as Executive Director. Mrs Petrovic joined Pancontinental in 2008, has been Company Secretary since 2010 and is also Alternate Director for Pancontinental Chairman Mr Kennedy.

## **Funds Received on Conversion of Options**

During the financial year, the Company received AU \$575,423 (net of costs) from the conversion of 144,926,830 (at \$0.004) of the Company's options.

## **Convertible Notes**

Pancontinental issued Convertible Notes to sophisticated investors on 27 March 2018, with a total value of \$1.6 million. The Convertible Notes matured during the year and the Company has repaid the Convertible Notes together with accrued interest in full by cash and is accordingly discharged and released from all obligations and liabilities under the Convertible Notes.

## **USA California**

The Company had anticipated that through the acquisition of Bombora Natural Energy Pty Ltd ("Bombora") it

would have added producing Californian assets to its portfolio. However, after drilling two wells which did not produce adequate results, the Company reduced its direct exposure to California. The last step in this process occurred during the year with Pancontinental signing a binding sale and purchase agreement with Raven Energy Limited (now Gasfields Limited) to acquire 100% of Bombora. Pancontinental has maintained some upside by a shareholding in Gasfields Limited.

## **New Ventures**

The Company has focussed resources to evaluate a number of interesting opportunities which could complement Pancontinental's current portfolio of exploration assets. The Company is mindful that any new venture must be the right fit and add value for its shareholders. As such, Pancontinental is carefully assessing projects to select the most suitable for the Company.

## **Group Overview**

Pancontinental Oil and Gas NL was incorporated in 1985 and listed on the Australian Securities Exchange in 1986. The Pancontinental group is comprised of the parent company along with three subsidiary companies.

## **Dynamics of the Business**

The company continues to look for new opportunities, in Africa and elsewhere compatible with its strengths. Whilst the company is committed to further developing existing projects, emerging opportunities are reviewed on a timely basis.

## **Performance Indicators**

The Board closely monitors and discusses the group's operating plans, financial budget and overall performance as well as the company's share price.

The underlying drivers which contribute to the company's performance and can be managed internally include a disciplined approach to reducing the group's non-essential costs and allocating funds to those areas which will add shareholder value. The company's share price is often influenced by factors outside the control of Management and the Board, such as market conditions; however through effective communication between the company and all of its Stakeholders the company can provide assurance that the Company's assets are being well managed.

## **Operating Results for the Year**

Summarised operating results are as follows:

	2019			
	Revenues	Results		
	\$	\$		
Non-segment and unallocated revenues and results	7,162,820	(1,633,481)

The main contributing factor to the results this financial year was the write off of exploration expenditure and proceeds received on sale of investments.

## **Shareholder Returns**

The group is in the exploration phase and so returns to Shareholders are primarily measured through capital growth.

	2019	2018	2017	2016	2015
Profit /(Loss) attributable to owners of the company	(1,633,481)	(6,263,751)	(4,981,475)	(5,472,381)	(41,878,638)

## **Risk Management**

Risk management is the process by which an organisation identifies, analyses, responds, gathers information about and monitors strategic risks that could actually or potentially impact the organisation's ability to achieve its mission and objectives. The Board and Management assess risk as part of the ordinary course of business activities such as strategic planning, promotion, budgets, mergers and acquisitions, strategic partnerships, legislative changes and conducting business abroad.

The Board is responsible for ensuring that risks and opportunities are identified on a timely basis and that the group's objectives and activities are aligned with the risks and opportunities identified by the Board.

The group believes that it is crucial for all Board members to be a part of this process and as such the Board has not established a separate risk management committee. The Board has a number of mechanisms in place to ensure that its objectives and activities are aligned with the risks identified. These include the following:

- Implementation of operating plans and cash flow budgets by Management and Board monitoring of progress against these budgets.
- Ongoing analysis of business risks specific to the upstream oil and gas industry. Examples of such risk
  include:
  - Oil and gas price volatility as well as currency fluctuations in the Australian and United States dollars. The state of the oil and gas industry is affected by the price. Although the Company is not in production and there is not a material business risk in that regard, the Company's operations are affected due to exploration budgets and overall activity in the exploration sector;
  - Currently most of Pancontinental's assets are managed by Joint Venture Operators who are responsible for the day to day operations of the permits. As such, regular review of the Joint Venture activities is crucial in safeguarding the assets of the Company;
  - Conducting business in foreign jurisdictions carries with it a risk of change in business, legal, tax, accounting, political, environmental and technical practices for example, which may have a material effect on the Company;
- The group has advised each Director, Manager and Consultant that they must comply with a set of ethical standards maintaining appropriate core company values and objectives. Such standards ensure shareholder value is delivered and maintained. Standards cover legal compliance, conflict resolution, privileged information and fair dealing.
- The Board provides Shareholders with information using a comprehensive Continuous Disclosure Policy which includes identifying matters which have a material effect on the underlying security price. ASX announcements, the web page of the company and other media resources are used to convey such information. The Board encourages full participation by Shareholders at the AGM and Shareholders are requested to vote on Board and Executive remuneration aggregates as well as Employee Incentive Schemes.

The Company's prevents the occurrence of risks by undertaking regular reviews of the Group's business practices to identify potential risks. Techniques used for identifying risks include:

- Evaluating each function of the business and identifying anything that could have a negative impact on the Group's operations;
- Reviewing records to identify previous issues that could have a current impact;
- Considering any external risks that could affect the Group; and
- Consulting with employees and independent contractors to identify risks and in turn implementing risk prevention measures.

Once potential risks have been identified, managing risks involves developing cost effective options on how to best to deal with the risks. Risks can be:

- Avoided by changing business processes or equipment to achieve a similar outcome with less risk;
- Reduced if a risk can't be avoided the Group can reduce its likelihood and consequence. This could
  include staff training, documenting procedures and policies, complying with legislation, maintaining
  equipment, practicing emergency procedures, keeping records safely secured and contingency planning.
- Transferred transfer some or all of the risk to another party through contracting, insurance, partnerships or joint ventures; and
- Accepted this may be the only option.

The continued monitoring of risk within the group is directed at evaluating:

- The effectiveness and efficiency of operations;
- The reliability of financial and management internal processes and reporting; and
- Compliance with laws and regulations

to enable the group to safeguard its assets.

## **Investments for Future Performance**

During the financial year, the Board assessed the current exploration portfolio and considered how it could position itself to execute a growth strategy aimed at enhancing shareholder value while utilising the expertise and experience of its Board and personnel.

The first action that the Board completed was the divestment of its interests in the US assets acquired through the transaction with Bombora Natural Energy Pty Ltd in 2017. The Company could then concentrate on its high impact assets in Namibia, PEL 37 and PEL 87. In addition, the corporate and exploration team vetted many projects which could bring short term activity to the Company's operations. As such, the Company executed a binding term sheet to farmin into two large exploration permits, ATPs 920 and 924 in the Cooper Basin, Queensland, Australia.

Board and management believe that these initial steps are on the correct path for execution of its growth strategy for the Company.

## **Review of Financial Condition**

#### Capital Structure

During the year, the Company added to its cash reserves through the receipt of the second tranche payment of the divestment of a 33.33% interest in subsidiary Pancontinental Namibia Pty Ltd, as well as proceeds received on conversion of options.

## SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

No significant changes in the state of affairs of the company occurred during the financial year.

## SIGNIFICANT EVENTS AFTER THE BALANCE DATE

#### 15 July 2019 - Pancontinental Farmin to Large Cooper Basin Oil and Gas Trend

Pancontinental announced that it had executed a binding terms sheet to farmin into two large exploration permits, ATPs 920 and 924 in the Cooper Basin, Queensland, Australia. The project areas include the multi prospect, Meeba Project which includes the Ace oil prospect area within ATP 924. The farmin is with Key Petroleum Cooper Basin Pty Ltd, a wholly owned subsidiary of Key Petroleum Limited ("Key").

Pancontinental agreed to farmin to ATP 920 and the Ace Area component of ATP 924. Pancontinental will acquire from Key:

- an undivided 20% participating interest in ATP 920 (together with an option to acquire an additional undivided 15% participating interest in ATP 920); and
- an undivided 25% participating interest in the Ace Area (collectively the "Farmin Interest").

In consideration of the assignment of the Farmin Interest, Pancontinental will undertake the following obligations (collectively Farmin Obligations):

- pay to Key within 3 working days of execution of the terms sheet, \$150,000 of which \$100,000 is refundable in the event ATP 920 and 924 are not renewed. These are to cover costs in relation to seismic reprocessing in respect of the Ace Area and the area of ATP 920 as well as other permitting costs; and
- fund 26.67% of the total costs and expenses of drilling an exploration well to target depth including plugging and abandoning the well (Dry Hole Costs) but excluding success case costs associated with testing and completing the well, with such well costs to be capped at gross \$3,000,000 ("on a 100% basis").

By satisfying the Farmin Obligations Pancontinental shall be deemed to have also acquired from Key an option to acquire a further undivided 15% participating interest in ATP 920:

- The option may be exercised by Pancontinental giving notice to Key at least 90 days prior to the expiry of Year 1 of the renewed term of ATP 920.
- If Pancontinental exercises the option then Pancontinental will fund, at its sole risk and expense, during Year 2 of the renewed term of ATP 920, 280km of 2D seismic data acquisition in respect of ATP 920.

Key will remain Operator and as soon as practicable following Pancontinental satisfying the Farmin Obligations, Key will have the option ("Excise Option") to divide ATP 924 into 2 authorities to prospect, one comprising the Ace Area where Key will retain 75% and the other comprising the balance area within ATP 924 where Key will have 100%.

The Excise Option may be exercised by Key giving notice to Pancontinental within 12 calendar months following Pancontinental satisfying the Farmin Obligations.

#### 5 August 2019 – Resignation of Non-Executive Director John Begg

Pancontinental announced the resignation of Non-Executive Director John Begg. Mr Begg served on the Board since July 2017 when the Company acquired a new subsidiary run by Mr Begg.

There were no other significant events after balance date.

## LIKELY DEVELOPMENTS AND EXPECTED RESULTS

The economic entity expects to maintain the present status and level of operations and hence currently there are no likely developments in the entity's operations.

## **ENVIRONMENTAL REGULATION AND PERFORMANCE**

Pancontinental is committed to complying with any requirement for environmental management in any jurisdiction and country that it operates.

Currently most of Pancontinental's assets are managed by Joint Venture Operators who are responsible for the day to day operations of the permits. As such, regular review of the Joint Venture activities is crucial in safeguarding the assets of the Company. Technical and financial Executives review the work programmes and

budgets in place to ensure compliance with approved documents. Updates on operational activities are provided by the Joint Venture partners on a regular basis and will include any environmental operational issues if applicable.

## INDEMNIFICATION AND INSURANCE OF DIRECTORS AND OFFICERS

Since the end of the previous financial year the company has paid insurance premiums in respect of Directors' and officers' liability and legal expenses insurance contracts. The Directors have not included details of the nature of the liabilities covered or the amount of the premium paid in respect of the Directors and Officers and legal expenses insurance contracts as such disclosure is prohibited under the terms of the contract. The premiums were paid in respect of the following officers of the company and its controlled entities:

HD Kennedy, EA Myers, V Petrovic, RB Rushworth, MM Malaxos and JD Begg (resigned 5 August 2019).

## **REMUNERATION REPORT (Audited)**

This report outlines the remuneration arrangements in place for Directors and Executives of Pancontinental Oil & Gas NL ("the company").

## **Remuneration philosophy**

A description of the remuneration structures in place are as follows: The Non-Executive Directors receive a fixed fee for their services. If they perform additional duties they are remunerated at market rates. The Chief Executive Officer receives a fixed fee for his respective executive services. Executive Directors are paid a salary. Directors do not receive any termination or retirement benefits.

## **Remuneration committee**

The full Board carries out the role of the Remuneration Committee.

## **Remuneration structure**

In accordance with best practice corporate governance, the structure of Non-Executive and Executive remuneration is separate and distinct.

## **Non-Executive Director remuneration**

#### **Objective**

The Board seeks to set aggregate remuneration at a level which provides the company with the ability to attract and retain Directors of the highest calibre, whilst incurring a cost which is acceptable to Shareholders.

#### **Structure**

The Constitution and the ASX Listing Rules specify that the aggregate fees of Non-Executive Directors shall be determined from time to time by a general meeting. An amount not exceeding the amount determined is then divided between the Directors as agreed. The latest determination was at the Annual General Meeting held on 29 November 2007 when Shareholders approved an aggregate remuneration of \$400,000 per year. The amount of aggregate remuneration sought to be approved by Shareholders and the manner in which it is apportioned amongst Directors is reviewed annually. The Board considers advice from external sources as well as the fees paid to Non-Executive Directors of comparable companies when undertaking reviews. The Non-Executive Directors of the Company can participate in Employee Option Incentive Schemes with Shareholder approval. The remuneration of Executive and Non-Executive Directors for the period ending 30 June 2019 is detailed in Table 1 of this report.

## Senior Management and Executive Director remuneration

#### **Objective**

The Board seeks to set aggregate remuneration at a level which provides the company with the ability to attract and retain Executives of the highest calibre, whilst incurring a cost which is acceptable to Shareholders.

#### **Structure**

In determining the level and make up of Executive remuneration, the Board may take independent advice from external sources when necessary.

The Chief Executive Officer, Mr Myers receives a salary of \$200,000 per annum for his respective executive services. The Company and Mr Myers do not currently have a contract between them for the CEO and Executive Director position. Mr Myers was reappointed Executive Director and appointed Chief Executive Officer on 15 November 2018.

The Board regularly reviews compensation levels to take into account market-related factors such as cost of living changes, any change to the scope of the role performed and any other relevant factors of influence.

## **Fixed remuneration**

#### **Objective**

The level of fixed Directors' fees is set so as to provide a base level which is both appropriate to the position and is competitive in the market.

#### **Structure**

Fixed primary remuneration is paid on a cash basis and there are no fringe benefits or other costs incurred by the company.

## **Company Performance**

Company performance can be reflected in the movement of the company's share price over time. As the company is in an exploration phase, returns to Shareholders will primarily come through share price appreciation. The Board's strategy in achieving this aim is to acquire early stage projects which can attract quality joint venture partners.

The company has developed skills in the acquisition of quality projects and has also built strategic alliances with other companies to further develop its project portfolio.

#### **Consequences of Performance on Shareholder Wealth**

	JD Begg (resigned 5 August 2019)	CEO and Executive Director (to Nov 18) Non-Executive Director to 5 Aug 19 when he resigned.	2 years	No – Provided Executive Services		
	In considering the independence of Directors, the Board refers to the criteria for independence as set out in Box 2.3 of the ASX Corporate Governance Council's third edition of Corporate Governance Principles and Recommendations. To the extent that it is necessary for the Board to consider issues of materiality, the Board refers to the thresholds for qualitative and quantitative materiality as adopted by the Board and contained in the Board Charter, which is disclosed on the Company's website.					
	Box 2.3's independence criteria has been applied in the above table and although no Directors are considered to be independent, the Board believes its current composition is in line with the long term interests of Shareholders. The Board also acknowledges the need for independent judgement on all Board decisions, irrespective of each individual Director's independence and as such has implemented a Policy on Independent Professional Advice.					
2.4	A majority of the	e board of a listed entity should be inde	ependent dire	ectors.		
	Not Adopted – No Director is considered to be independent. The Board acknowledges Recommendation 2.4 in that the majority of the Board of a listed entity should be independent Directors, however the Board is of the belief that each area of expertise required for a Company of Pancontinental's size is well represented and that there are long term benefits to be gained from the current combination of Directors' skills, experience and expertise.					
	Although the Board of Directors are able to exercise objective business judgement, a Policy on Independent Professional Advice has been implemented to assist if required. If a Director considers it necessary to obtain professional advice to properly discharge the responsibility for their office as a Director, then the Company will pay reasonable expenses associated with obtaining such advice.					
2.5		Board of a listed entity should be an ir e same person as the CEO of the entity		irector and, in particular,		
		s recommended, the Chairman and th the Board is Mr Kennedy, who is not he Company.				

## **Corporate Governance Statement**

	Leadership of the Board rests with the Chairman who oversees its operation ensuring that it is run effectively. The Board believes Mr Kennedy's interests are aligned with the long term interests of Shareholders and given his extensive experience and qualifications, believes Mr Kennedy is the most appropriate Director to carry out the role of the Chairman.
2.6	A listed entity should have a program for inducting new directors and provide appropriate professional development opportunities for directors to develop and maintain the skills and knowledge needed to perform their role as directors effectively.
	Adopted – The Company has devised an Induction Programme for new Directors, Executives and Employees.
	The goal of the Induction Programme is to assist new Directors in participating fully and actively in Board decision making at the earliest opportunity by providing them with the necessary Company knowledge as well as information pertaining to the industry within which it operates. A Directors' Pack is made available which includes key information on Board Members, Board Charters, Duties Imposed on Directors of Public Companies, Directors' Disclosure Obligations, Declaration of Interest Forms and Overall Responsibility amongst other Policies and Procedures implemented by the Company.
	New Directors are given the opportunity to review the Company's operations and meet with key Executives in the Exploration, Geology, Finance and Corporate areas.
	Professional development opportunities arise when there are new corporate, legal, tax, accounting or geological developments within Australia or in overseas countries where the Company operates. The Board is briefed by Management on any new standards or matters of interest that are relevant in the Company continuing its business effectively. In addition, a number of professional bodies with which the Company is associated run regular seminars or conferences at which attendance is encouraged.
PRIN	ICIPLE 3 – ACT ETHICALLY AND RESPONSIBLY
3.1	A listed entity should:
	(a) have a code of conduct for its directors, senior executives and employees; and
	(b) disclose that code or a summary of it.

The Policy was adopted so that any concerns regarding contraventions of the Code of Conduct could be addressed in a safe and formal manner without fear of reprisal.

PRIN	ICIPLE 4 – SAFEGUARD INTEGRITY IN CORPORATE REPORTING
4.1	<ul> <li>The board of a listed entity should:</li> <li>(a) have an Audit Committee which: <ul> <li>(1)has at least three members, all of whom are Non-Executive Directors and a majority of whom are Independent Directors; and</li> <li>(2)is chaired by an Independent Director, who is not the chair of the board, and disclose: <ul> <li>(3)the charter of the committee;</li> <li>(4)the relevant qualifications and experience of the members of the committee; and</li> <li>(5)in relation to each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or</li> </ul> </li> <li>(b) if it does not have an audit committee, disclose that fact and the processes it employs that independently verify and safeguard the integrity of its corporate reporting, including the processes for the appointment and removal of the external auditor and the rotation of the audit engagement partner.</li> </ul> </li> </ul>
	<ul> <li>Not Adopted – Mr Myers, Ms Malaxos and Mrs Petrovic are members of the Audit Committee. Although the Company has an Audit Committee, not all of the members are Non-Executive Directors and there is no Independent Director on the Committee.</li> <li>Two meetings were held as the Audit Committee during the year and recommendations were presented to the Board. The Board has adopted an Audit Committee Charter which is disclosed on the Company's website at <a href="http://pancon.com.au/about-us/corporate-governance/">http://pancon.com.au/about-us/corporate-governance/</a> The Charter as well as the Company's Procedure for the Selection, Appointment and Rotation of External Auditor <a href="http://pancon.com.au/about-us/corporate-governance/">http://pancon.com.au/about-us/corporate-governance/</a> is applied when convening to discuss Audit Committee matters.</li> <li>An External Auditor is appointed to independently verify and safeguard the integrity of the Company' corporate reporting, in addition when discussing Audit Committee matters, the Board reviews annual action points such as: <ul> <li>Review of financial statements</li> <li>Assess Management's selection of accounting policies and principles</li> <li>Consider the external audit report and whether it is consistent with the Board's information and knowledge</li> <li>Consider the Company's internal controls</li> <li>Assess if the external audit report is adequate for Shareholder needs</li> <li>Discuss any significant findings with the External Auditor</li> <li>Confirm the independence of the External Auditor</li> <li>Ensure that the External Auditor is requested to attend the Annual General Meeting</li> </ul> </li> </ul>
	The Board in conjunction Management's input, review the suitability of existing audit arrangements and the scope of the audit on a periodic basis. The Board is responsible for the appointment of a new external auditor should a vacancy arise, however the appointment must be ratified by Shareholders at the next Annual General Meeting. The Board of Directors also review the current circumstances in light of Section 324D (1) and (2) of the Corporations Act 2001 which stipulates that an individual may not play a significant role in the audit of a listed entity for more than five out of seven successive financial years.
4.2	The Board of a listed entity should, before it approves the entity's financial statements for a financial period, receive from its CEO and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
	<ul> <li>Adopted - A Directors' Declaration under Subsection 295(4) of the Corporations Act 2001 is only made after each person who performs:</li> <li>a) A Chief Executive Officer function; or</li> <li>b) A Chief Financial Officer function</li> <li>in relation to the Company, has given the Directors a declaration whether, in their opinion:</li> </ul>

# **Corporate Governance Statement**

	<ul> <li>a) The financial records of the Company for the financial year have been properly maintained in accordance with Section 286 of the Corporations Act 2001;</li> <li>b) The financial statements and notes for the financial year comply with the accounting standards;</li> </ul>
	standards; c) The financial statements and notes for the financial year give a true and fair view; d) Any other matters that are prescribed by the regulations in relation to the financial statements and notes for the financial year are satisfied.
	In addition, that the opinion has been formed on the basis of a sound system of risk management and internal controls which is operating effectively.
	The declaration is made:
	<ul> <li>a) In writing;</li> <li>b) Specifying the date the declaration is made;</li> <li>c) Specifying the capacity in which the person is making the declaration; and</li> <li>d) Signed by the person making the declaration.</li> </ul>
4.3	A listed entity that has an AGM should ensure that its external auditor attends its AGM and is available to answer questions from security holders relevant to the audit.
	Adopted – During Annual General Meeting planning, the External Auditors are consulted to ensure that they are available to attend the meeting and answer questions from Shareholders with regard to the conduct of the audit and the Auditor's Report.
PRIN	ICIPLE 5 – MAKE TIMELY AND BALANCED DISCLOSURE
5.1	A listed entity should:
	<ul> <li>(a) have a written policy for complying with its continuous disclosure obligations under the Listing Rules; and</li> </ul>
	(b) disclose that policy or a summary of it.
	Adopted – A summary of the Company's Policy on ASX Listing Rule Compliance can be found at <u>http://pancon.com.au/about-us/corporate-governance/</u>
	As a Company listed on the Australian Securities Exchange, Pancontinental is obliged to disclose certain information under a continuous disclosure regime to keep the market informed of events and developments as they occur. The Company promotes timely and balanced disclosure of al material matters concerning the Company. All Investors should have equal and timely access to material information. PRIM	ICIPLE 7 – RECOGNISE AND MANAGE RISK
7.1	The Board of a listed entity should:
	(a) have a committee or committees to oversee risk, each of which:
	(1)has at least three members, a majority of whom are independent directors; and
	(2) is chaired by an independent director,
	and disclose:
	<ul><li>(3)the charter of the committee;</li><li>(4)the members of the committee; and</li></ul>
	(5) as at the end of each reporting period, the number of times the committee met throughout
	the period and the individual attendances of the members at those meetings; or
	(b) if it does not have a risk committee or committees that satisfy (a) above, disclose that fact and the processes it employs for overseeing the entity's risk management framework.
	Not Adopted - The full Board fulfils the role of the Risk Committee.
	The Board considers those matters that would ordinarily be the responsibility of a Risk Committee and no separate meetings were held as the Risk Committee during the year. The Company's Risk Management Policy (a summary of which can be found at <u>http://pancon.com.au/about- us/corporate-governance/)</u> is applied when reviewing and discussing risk management matters.
	In managing risk, it is the Company's practice to take advantage of potential opportunities while managing potential adverse effects. The Company's Risk Management Policy sets out the Company's risk management system and processes as well as the Company's Risk Profile.
	The Policy covers the following risk related points and is used as a means to assess the Company's risk management structure:
	<ul> <li>The role of the Board and delegated responsibility – ultimate responsibility rests with the Board, however day to day management of risk is the responsibility of the CEO with the assistance of Senior Management</li> <li>The role of the CEO and accountabilities</li> <li>Authority of the CEO</li> <li>Risk Profile</li> </ul>
	Audit Committee Charter
	Regular budgeting and financial reporting
	<ul> <li>Clear limits and authorities for expenditure levels</li> <li>Procedures for compliance with continuous disclosure obligations under the Listing Rules</li> <li>Procedures to assist with establishing and administering corporate governance systems and disclosure requirements</li> <li>Responsibility to Stakeholders</li> <li>Continuous improvement</li> </ul>
7.2	The Board or a committee of the Board should:
	(a) review the entity's risk management framework at least annually to satisfy itself that it continues to be sound; and
	(b) disclose, in relation to each reporting period, whether such a review has taken place.
	Adopted – The Board and Management assess risk as part of the ordinary course of business activities such as strategic planning, promotion, budgets, mergers and acquisitions, strategic partnerships, legislative changes and conducting business abroad. Each Board Meeting is used as a platform for the review and assessment of the Company's risk profile.
7.3	A listed entity should disclose:
	(a) if it has an internal audit function, how the function is structured and what role it performs; or
	(b) if it does not have an internal audit function, that fact and the processes it employs for evaluating and continually improving the effectiveness of its risk management and internal control processes.

## **Corporate Governance Statement**

	Adopted – The Company discloses that it does not have an internal audit function. The Company's risk management system is overseen by Management who ensure that the		
	identification, monitoring and response of business risks. The Board reviews Management's assessment of the efficiency of the system and according to the Risk Management Policy is required to satisfy itself that Management has developed and implemented a sound system of risk management and internal control.		
7.4	A listed entity should disclose whether it has any material exposure to economic, environmental and social sustainability risks and, if it does, how it manages or intends to manage those risks.		
	Adopted – The Company values economic, environmental and social sustainability in areas within which it operates.		
	The Company has adopted a Corporate Governance Manual which sets outs the policies and procedures in place which apply to the Board, Management, Employees and the entire business. The policies and procedures are designed to assist in identifying relevant risks and having processes in place to mitigate if not eliminate the risk.		
	<ul> <li>Economic sustainability refers to the ability of a listed entity to continue operating at a particular level of economic production over the long term.</li> <li>Environmental sustainability refers to the ability of a listed entity to continue operating in a manner that does not compromise the health of the ecosystems in which it operates over the long term.</li> <li>Social sustainability is the ability of a listed entity to continue operating in a manner that</li> </ul>		
	meets accepted social norms and needs over the long term. Risks identified that may have a material effect on the Company include:		
	<ul> <li>Oil and gas price volatility as well as currency fluctuations in the Australian and United States dollars. The state of the oil and gas industry is affected by the price. Although the Company is not in production and there is not a material business risk in that regard, the Company's operations are affected due to exploration budgets and overall activity in the exploration sector;</li> </ul>		
	<ul> <li>Currently most of Pancontinental's assets are managed by Joint Venture Operators who are responsible for the day to day operations of the permits. As such, regular review of the Joint Venture activities is crucial in safeguarding the assets of the Company. Technical and financial Executives review the work programmes and budgets in place to ensure compliance with approved documents. Updates on operational activities are provided by the Joint Venture partners on a regular basis and will include any environmental operational issues if applicable;</li> </ul>		
	<ul> <li>Conducting business in foreign jurisdictions carries with it a risk of change in business, legal, tax, accounting, political, environmental and technical practices for example, which may have a material effect on the Company. Pancontinental monitors joint venture partners working in those jurisdictions as well as local news developments to ensure that if a risk presents itself the Company is well equipped with sufficient time to decide on a course of action;</li> </ul>		
	<ul> <li>The Company is committed to providing all Employees, Executives and Directors with a safe and productive work environment. There are environmental and location risks that the Company may face, however the Corporate Governance Manual and the procedures and policies within it should assist in assessing the best course of action to mitigate or eliminate the risk;</li> </ul>		
	<ul> <li>For expenditure that the Company has control of, it will endeavour to use sustainable and ethically sourced products that have little or no impact on the environment.</li> </ul>		

8.1	The Board of a listed entity should:
	(a) have a remuneration committee which:
	(1) has at least three members, a majority of whom are independent directors; and
	(2) is chaired by an independent director,
	and disclose:
	(3)the charter of the committee;
	(4)the members of the committee; and
	(5)as at the end of each reporting period, the number of times the committee met througho the period and the individual attendances of the members at those meetings; or
	(b) if it does not have a remuneration committee, disclose that fact and the processes it employ for setting the level and composition of remuneration for directors and senior executives ar ensuring that such remuneration is appropriate and not excessive.
	Not Adopted – The full Board fulfils the role of the Remuneration Committee.
	The Board considers those matters that would ordinarily be the responsibility of a Remuneration Committee and no separate meetings were held as the Remuneration Committee during the year The Board has adopted a Remuneration Committee Charter which is disclosed on the Company website at <u>http://pancon.com.au/about-us/corporate-governance/</u> The Charter as well as the Company's Remuneration Policy is applied when convening to discuss Remuneration Committee matters.
	Emoluments of Directors and Senior Executives are set by reference to payments made by oth companies of a similar size and industry, and by reference to the skills and experience of the Directors and Executives. Details of the nature and amount of emoluments of each Director of the Company are disclosed annually in the Company's annual report.
	Should circumstances arise where the Board needs assistance on a remuneration matter, the Boa after requisite approval may engage a remuneration consultant to ensure the level of remuneration in the Company is appropriate for its size, level of activity and industry.
8.2	A listed entity should separately disclose its policies and practices regarding the remuneration non-executive directors and the remuneration of executive directors and other senior executive
	Adopted - The Company has adopted a Remuneration Committee Charter which can be found of the Company's website at <u>http://pancon.com.au/about-us/corporate-governance/</u> The Chart separately discloses the processes regarding the remuneration of Non-Executive Directors and the remuneration of Executive Directors and other Senior Executives. Executive Remuneration
	In considering the level of remuneration for Executives, the matters that are taken into accou
	<ul> <li>include:</li> <li>Remuneration which motivates Executives to pursue the long term growth and success the Company within an appropriate control framework;</li> </ul>
	<ul> <li>A clear correlation between performance and remuneration;</li> <li>Align the interests of key leadership with the long term interests of the Company Shareholder; and</li> </ul>
	• Prohibit Executives from entering into transactions which limit the economic risk participating in unvested entitlement.
	Non-Executive Remuneration
	Matters of consideration include:
	<ul> <li>Fees paid to Non-Executive Directors are within the aggregate amount approved I Shareholders;</li> </ul>
	<ul> <li>Non-Executive Directors to be remunerated by way of fees;</li> <li>Non-Executive Directors are not provided with retirement benefits other than statuto superspective, and</li> </ul>
	<ul> <li>superannuation; and</li> <li>Non-Executive Directors are not entitled to participate in equity-based remuneration</li> </ul>

8.3	<ul> <li>A listed entity which has an equity-based remuneration scheme should:</li> <li>(a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and</li> <li>(b) disclose that policy or a summary of it.</li> </ul>
	Adopted - The Company has adopted a Policy for Trading in Company Securities which can be found on the Company's website at <a href="http://pancon.com.au/about-us/corporate-governance/">http://pancon.com.au/about-us/corporate-governance/</a> Directors, Officers and Employees who wish to trade in Company securities must first have regard to the statutory provisions of the Corporations Act 2001 dealing with insider trading, in conjunction with the Company's Policy for Trading in Company Securities. The policy has been developed so that all Company employees and representatives are clear as to their obligations with regard to trading while in possession of insider information.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This financial report was authorised for issue by the Directors on 26 September 2019.

## **Statement of Compliance**

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards ("AASBs"), including Australian interpretations adopted by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001. The consolidated financial report of the consolidated entity and company also complies with IFRSs and interpretations adopted by the International Accounting Standards Board.

## **Basis of preparation**

The report has been prepared on the basis of historical costs and except where stated does not take into account changing money values or current valuation of non-current assets. The accounting policies adopted are consistent with those of the previous year. The following specific accounting policies have been consistently applied, unless otherwise stated.

## (a) Income Tax

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, and any adjustment to tax payable in respect of prior years.

Deferred tax is provided using the balance sheet liability method, providing for temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

## (b) Exploration Expenses

Exploration and evaluation expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that the costs are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage which permits reasonable assessment of the economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against operating results in the year in which the decision to abandon the area is made. When production commences the accumulated costs for the relevant area of interest are classified as development costs and amortised over the life of the project area according to the rate of depletion of the economically recoverable reserves.

Where independent valuations of areas of interest have been obtained, the valuations are brought to account. Subsequent expenditure on re-valued areas of interest is accounted for in accordance with the above principles. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

As at the end of the financial year, the Directors considered that the carrying value of the oil and gas exploration interests of the consolidated entity was as shown in the Statement of Financial Position and no further impairments arises other than that already recognised.

## (c) Principles of consolidation

The consolidated financial statements are those of the consolidated entity, comprising Pancontinental Oil & Gas NL (the parent entity) and all entities which Pancontinental Oil & Gas NL controlled from time to time during the year and at balance date.

Information from the financial statements of subsidiaries is included from the date the parent company obtains control until such time as control ceases. Where there is loss of control of a subsidiary, the consolidated financial statements include the results for the part of the reporting period during which the parent company has control.

All intercompany balances and transactions, including unrealised profits arising from intra-group transactions,

have been eliminated in full.

#### (d) Foreign currencies

Translation of foreign currency transactions

Transactions in foreign currencies of entities within the consolidated entity are converted to local currency at the rate of exchange ruling at the date of the transaction.

Foreign currency monetary items that are outstanding at the reporting date (other than monetary items arising under foreign currency contracts where the exchange rate for that monetary item is fixed in the contract) are translated using the spot rate at the end of the financial year.

A monetary item arising under a foreign currency contract outstanding at the reporting date where the exchange rate for the monetary item is fixed in the contract is translated at the exchange rate fixed in the contract.

All resulting exchange differences arising on settlement or re-statement are recognised as revenues and expenses for the financial year. Any gains or costs on entering a hedge are deferred and amortised over the life of the contract.

#### (e) Cash and cash equivalents

For the purposes of the Statement of Cash Flows, cash includes cash on hand and in banks, and money market investments readily convertible to cash within two working days, net of outstanding bank overdrafts.

Interest expense is charged as an expense as it accrues.

#### (f) Receivables

Trade receivables are recognised and carried at original invoice amount less a provision for any uncollectible debts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written-off as incurred.

Receivables from related parties are recognised and carried at the nominal amount due. Bills of exchange and promissory notes are measured at the lower of cost and net realisable value.

#### (g) Investments

Investments in controlled entities are carried in the company's financial statements at the lower of cost and recoverable amount.

#### (h) Recoverable Amount

The carrying amounts of non-current assets valued on the cost basis, other than exploration and evaluation expenditure carried forward are reviewed to determine whether they are in excess of their recoverable amount at reporting date. If the carrying amount of a non-current asset exceeds its recoverable amount, the asset is written down to the lower amount. The write down is expensed in the reporting period in which it occurs.

#### (i) Property, plant and equipment

#### Cost and valuation

Property, plant and equipment is measured at cost.

Depreciation

Depreciation is provided on a diminishing value basis on all property, plant and equipment.

Major depreciation rates are:

	2019	2018
Plant and equipment:	30%	30%

#### (j) Joint ventures

Interests in the joint venture operations are brought to account by including in the respective classifications, the share of individual assets employed and share of liabilities and expenses incurred.

In the company's financial statements, investments in joint venture operations were carried at the lower of cost and recoverable amount.

#### (k) Going concern

The Directors consider that the going concern basis for the consolidated entity is appropriate and recognise

that additional funding is required to ensure the consolidated entity can continue its operations for the twelve month period from the date of this financial report and to fund the continued development of the consolidated entity's exploration assets. This basis has been determined after consideration of the following factors:

- The ability to issue additional share capital under the Corporations Act 2001, if required, by a share purchase plan, share placement or rights issue;
- The option of farming out all or part of the consolidated entity's exploration projects and;
- The ability, if required to dispose of interests in exploration and development assets.

Accordingly, the Directors believe that the consolidated entity will obtain sufficient cash inflows to enable it to continue as a going concern and that it is appropriate to adopt that basis of accounting in the preparation of the financial statements.

# (I) Payables

Liabilities for trade creditors and other amounts are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the consolidated entity.

Payables to related parties are carried at the principal amount.

Deferred cash settlements are recognised at the present value of the outstanding consideration payable on the acquisition of an asset discounted at prevailing commercial borrowing rates.

#### (m) Provisions

Provisions are recognised when the economic entity has a legal, equitable or constructive obligation to make a future sacrifice of economic benefits to other entities as a result of past transactions or other past events, it is probable that a future sacrifice of economic benefits will be required and a reliable estimate can be made of the amount of the obligation.

#### (n) Contributed equity

Issued and paid up capital is recognised at the fair value of the consideration received by the company.

Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

#### (o) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the entity and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

#### Rendering of Services

Where the contract outcome can be reliably measured, control of the right to be compensated for the services and the stage of completion can be reliably measured. Stage of completion is measured by reference to the labour hours incurred to date as a percentage of total estimated labour hours for each contract. Where the contract outcome cannot be reliably measured, revenue is recognised only to the extent that costs have been incurred.

#### Interest Revenue

Control of the right to receive the interest payment. Interest revenue is recognised as it accrues, taking into account the effective yield on the financial asset.

#### (p) Taxes

Tax-effect accounting is applied using the income statement liability method whereby income tax is regarded as an expense and is calculated on the accounting profit after allowing for permanent differences. To the extent timing differences occur between the time items are recognised in the financial statements and when items are taken into account in determining taxable income, the net related taxation benefit or liability, calculated at current rates, is disclosed as a future income tax benefit or a provision for deferred income tax. The net future income tax benefit relating to tax losses and timing differences is not carried forward as an asset unless the benefit is virtually certain of being realised.

Where assets are revalued no provision for potential capital gains tax has been made. *Goods and Services Tax (GST)* 

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position. Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority, are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

#### (q) Employee benefits

Provision is made for employee benefits accumulated as a result of employees rendering services up to the reporting date. These benefits include wages and salaries, annual leave, sick leave and long service leave.

Liabilities arising in respect of wages and salaries, annual leave, sick leave and any other employee benefits expected to be settled within twelve months of the reporting date are measured at their nominal amounts based on remuneration rates which are expected to be paid when the liability is settled.

Employee benefit expenses and revenues arising in respect of the following categories:

- wages and salaries, non-monetary benefits, annual leave, long service leave, sick leave and other leave benefits; and
- other types of employee benefits

are charged against profits on a net basis in their respective categories.

#### (r) Earnings per share

Basic EPS is calculated as net profit attributable to members, adjusted to exclude costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted EPS is calculated as net profit attributable to members, adjusted for:

- costs of servicing equity (other than dividends);
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares;

divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

#### (s) Comparatives

Where necessary, comparatives have been reclassified and repositioned for consistency with current year disclosures.

#### (t) Financial Instruments

See financial instruments note for compliance notes with AASB 7, financial instruments: disclosures.

#### (u) New accounting standards and interpretations

The financial report is presented in Australian dollars which is the company's functional currency. A number of new standards, amendments to standards and interpretations are effective for the current annual report period; however, none have been applied in preparing these consolidated financial statements. The standards are not expected to have a material impact on the accounting policies or consolidated financial statements of the group.

# 5. (d) Part Disposal of Subsidiary & Non-Controlling Interest- Pancontinental Namibia Pty Ltd

In September 2017, the Group disposed of 33.33% of the ownership interest in Pancontinental Namibia Pty Ltd to Africa Energy Corp. Following the disposal, the Group still controls the subsidiary and retains 66.67% of the ownership interest. The transaction has been accounted for as an equity transaction with a non-controlling interest ("NCI") resulting in the balances as shown in the financial statements.

The consideration for the issue of shares was a total of US\$7.7 million (approximately AU\$10 million) payable by Africa Energy in two stages. The first payment of US\$2.2 million (approximately AU\$3 million) was received by Pancontinental at closing of the transaction in September 2017. The second payment of US\$5.5 million (approximately AU\$7 million) was received after the spud of the Cormorant-1 well in September 2018.

#### 5. (e) Disposal of Subsidiary – Bombora Natural Energy Pty Ltd

In November 2018 Pancontinental executed a binding share sale and purchase agreement (SPA) with Raven Energy Limited (now Gasfields Limited) to acquire its wholly owned subsidiary, Bombora Natural Energy Pty Ltd.

Under the Sale and Purchase Agreement, Raven agreed to purchase all of the issued capital in Bombora from Pancontinental on the following terms and conditions:

a) The Company will issue to Pancontinental as consideration for the Acquisition, 295,000,000 fully paid ordinary shares in the Company (Shares) at a deemed issue price of \$0.0018 per Share (Consideration). The Consideration will be issued in the following manner:

(i) 267,806, 533 Shares within 5 business days of execution of the SPA, being the completion date (Completion) from existing share capacity 7.1; and

(ii) 27,193,467 fully paid shares in the capital of Raven within sixty (60) days of Completion subject to shareholder approval,

the Consideration will be subject to a 6 month voluntary escrow.

(b) Pancontinental agrees to participate in the Company's proposed placement to raise up to \$2,000,000 (Capital Raising) and will subscribe for 160,000,000 Shares at a deemed issue price of \$0.001.

# **14. SUBSEQUENT EVENTS**

#### 15 July 2019 - Pancontinental Farmin to Large Cooper Basin Oil and Gas Trend

Pancontinental announced that it had executed a binding terms sheet to farmin into two large exploration permits, ATPs 920 and 924 in the Cooper Basin, Queensland, Australia. The project areas include the multi prospect, Meeba Project which includes the Ace oil prospect area within ATP 924. The farmin is with Key Petroleum Cooper Basin Pty Ltd, a wholly owned subsidiary of Key Petroleum Limited ("Key").

Pancontinental agreed to farmin to ATP 920 and the Ace Area component of ATP 924. Pancontinental will acquire from Key:

- an undivided 20% participating interest in ATP 920 (together with an option to acquire an additional undivided 15% participating interest in ATP 920); and
- an undivided 25% participating interest in the Ace Area (collectively the "Farmin Interest").

In consideration of the assignment of the Farmin Interest, Pancontinental will undertake the following obligations (collectively Farmin Obligations):

- pay to Key within 3 working days of execution of the terms sheet, \$150,000 of which \$100,000 is refundable in the event ATP 920 and 924 are not renewed. These are to cover costs in relation to seismic reprocessing in respect of the Ace Area and the area of ATP 920 as well as other permitting costs; and
- fund 26.67% of the total costs and expenses of drilling an exploration well to target depth including plugging and abandoning the well (Dry Hole Costs) but excluding success case costs associated with testing and completing the well, with such well costs to be capped at gross \$3,000,000 ("on a 100% basis").

By satisfying the Farmin Obligations Pancontinental shall be deemed to have also acquired from Key an option to acquire a further undivided 15% participating interest in ATP 920:

- The option may be exercised by Pancontinental giving notice to Key at least 90 days prior to the expiry of Year 1 of the renewed term of ATP 920.
- If Pancontinental exercises the option then Pancontinental will fund, at its sole risk and expense, during Year 2 of the renewed term of ATP 920, 280km of 2D seismic data acquisition in respect of ATP 920.

Key will remain Operator and as soon as practicable following Pancontinental satisfying the Farmin Obligations, Key will have the option ("Excise Option") to divide ATP 924 into 2 authorities to prospect, one comprising the Ace Area where Key will retain 75% and the other comprising the balance area within ATP 924 where Key will have 100%.

The Excise Option may be exercised by Key giving notice to Pancontinental within 12 calendar months following Pancontinental satisfying the Farmin Obligations.

#### 5 August 2019 – Resignation of Non-Executive Director John Begg

Pancontinental announced the resignation of Non-Executive Director John Begg. Mr Begg served on the Board since July 2017 when the Company acquired a new subsidiary run by Mr Begg.

There were no other significant events after balance date.

# **18. SEGMENT INFORMATION**

#### Segment accounting policies

The group has adopted AASB 8 *Operating Segments* which requires operating segments to be identified on the basis of internal reports about components of the group that are reviewed by the chief operating decision-maker in order to allocate resources to the segment and to assess its performance.

The Board of Pancontinental reviews internal reports prepared as consolidated financial statements and strategic decisions of the group are determined upon analysis of these internal reports. During the period the group operated predominately in one business segment, being the oil and gas sector. Accordingly, under the management approach outlined only one operating sector has been identified and no further disclosures are required in the notes to the consolidated financial statements.

# **19. FINANCIAL INSTRUMENTS**

## **Financial risk management**

## **Overview:**

The Company and Group have exposure to the following risks from their use of financial instruments:

(a) credit risk

- (b) liquidity risk
- (c) market risk

This note presents information about the Company's and Group's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. Management monitors and manages the financial risks relating to the operations of the group through regular reviews of the risks.

# (a) Credit risk:

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. In this industry, it arises principally from the receivables of joint venture re-charges and recuperations of cost. For the group in this financial year, it arises primarily from trade debtors, receivables due from subsidiaries, loss on investment, GST and VAT refunds, prepayments and bonds.

(i) Trade and other receivables:

The Group operates predominantly in the oil and gas exploration sector; it does not ordinarily have material trade receivables and is therefore not ordinarily exposed to credit risk in relation to trade receivables.

The Company's and Group's exposure to credit risk is influenced directly and indirectly by the individual characteristics of each joint venture.

(ii) Loans to subsidiaries:

The Company has provided funding to its subsidiaries by way of loans. Repayment of these loans will occur through future business activities of each respective entity.

#### Exposure to credit risk

The carrying amount of the Company's and Group's financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

Consolidated		Carrying amount	
	Note	2019	2018
		\$	\$
Trade and other receivables	4	118,922	113,322
Cash and cash equivalents		2,014,369	755,661
Total		2,133,291	868,983

The Group considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties.

# Impairment losses:

None of the Company's or Group's receivables are past due at 30 June 2019, (2018: nil).

An impairment write down in respect of inter-Group loans and shares was recognised during the current year from an analysis of the subsidiaries respective financial positions. The total impairment write down recognised through impairment of loans to subsidiaries and shares held in subsidiaries during the current period was \$1,846,213 (2018: \$3,013,880).

Whilst the loans were not payable at 30 June 2019 a provision for impairment based on the subsidiaries financial position was carried forward from previous periods. The balance of this provision may vary due to performance of a subsidiary in a given year.

A provision for loss on investment in Gasfields Limited shares was created during the financial year for the whole investment of \$1,691,000 due to Gasfields currently being suspended from the Australian Securities Exchange. The Gasfields Limited investment is classified as a credit risk rather than equity price risk due to its suspension.

# (b) Liquidity risk:

Liquidity risk is the risk that the group will not be able to meet its financial obligations as they fall due. The group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the group's reputation.

The group manages liquidity risk by maintaining adequate cash reserves through continuously monitoring forecast and actual cash flows.

Consolidated	Contractual cashflows		
	< 1 year	1-5 years	> 5 years
	\$	\$	\$
Trade and other payables - Current	(298,513)	-	-
Provisions - Non Current	-	-	(24,909)
Other payables – Non Current	-	-	(672,267)
Total	(298,513)	-	(697,176)

#### (c) Market risk:

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

#### (i) Currency risk:

The Group is from time to time exposed to currency risk on investments, and foreign currency denominated purchases in a currency other than the respective functional currencies of group entities, primarily the Australian dollar (AUD). The other material currency that these transactions are denominated in is the (USD).

The group has not entered into any derivative financial instruments to hedge such transactions and anticipated future receipts or payments that are denominated in a foreign currency.

# Exposure to currency risk:

The group's exposure to foreign currency risk at balance date was as follows, based on notional amounts:

30 June 2019		30 June 2018				
AUD	AUD	USD	Total	AUD	USD	Total
Cash & cash equivalents	130,510 <sup>1</sup>	1,883,859	2,014,369	620,231	135,430	755,661
Trade & other receivables	118,922	-	118,922	113,322	-	113,322
Trade and other payables	(995,689)	-	(995,689)	(2,130,859)	-	(2,130,859)
Net balance sheet	(746,257)	1,883,859	(1,137,602)	(1,397,306)	135,430	(1,261,876)

#### exposure

1. 8,279.21 Namibian dollars which is the equivalent of \$840.15 is included in the AUD balance as it is immaterial to the currency risk.

The following significant exchange rates applied during the year:

	Average rate		Reporting date sp	ot rate
	2019	2018	2019	2018
AUD : USD	0.715	0.775	0.710	0.740

# Sensitivity analysis:

A 10 percent strengthening of the Australian dollar against the USD at 30 June would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2018.

Effect in AUD	Consol	Consolidated	
	Equity	Profit or loss	
30 June 2019			
10% strengthening	209,318	209,318	
30 June 2018			
10% strengthening	15,048	15,048	

A 10 percent weakening of the Australian dollar against the USD at 30 June would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

The sensitivity analysis only had an effect on the equity or profit and loss of the Company in relation to the USD bank account.

#### Interest rate risk:

Cash and cash equivalents

At balance date the Group had exposure to interest rate risk, through its cash and equivalents held within financial institution.

		Consolidated Carrying Amount	
	30 June	30 June 2018	
	2019		
Variable rate			
instruments			

2,014,369

755,661

## Fair value sensitivity analysis for fixed rate instruments:

The company and group do not account for any fixed rate financial assets at fair value through profit or loss. Therefore, a change in interest rates at reporting date would not affect profit or loss or equity.

#### Fair values:

The fair values of financial assets and liabilities, together with the carrying amounts shown in the balance sheet, are as follows:

Consolidated	30 June 2019		30 June 2018	
	Carrying amount	Fair value	Carrying amount	Fair value
Trade and other receivables	118,922	118,922	113,322	113,322
Cash and cash equivalents	2,014,369	2,014,369	755,661	755,661
Trade and other payables	(995,689)	(995,689)	(2,130,859)	(2,130,859)
	(1,137,602)	(1,137,602)	(1,261,876)	(1,261,876)

The basis for determining fair values is disclosed in note [1].

#### **Capital Management:**

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board of Directors monitors the return on capital, which the group defines as net operating income divided by total Shareholders' equity, excluding non-redeemable preference shares and minority interests.

	2019	2018
Equity attributable to Shareholders of the		
Company		
Minorities	(486,812)	857,823
Equity	7,859,153	6,769,885
Total assets	8,368,030	9,758,567
Equity ratio in %	93.92%	69.37%
Average equity	7,500,025	6,998,599
Net Profit /(Loss)	(1,633,481)	(6,263,751)
Return on Equity in %	(21.78)%	(89.50)%

There were no changes in the group's approach to capital management during the year.

Neither the company nor any of its subsidiaries are subject to externally imposed capital requirements.

# 20. RELATED PARTY

- (a) During the year the company paid fees to Resource Services International Limited, a company in which Mr Kennedy has a financial interest, for his role as Non-Executive Chairman. The amount paid was \$50,000 (2018: \$50,000). Refer note 17.
- (b) During the year the company paid fees to Rock Doc Pty Ltd, a company in which Mr Begg (resigned 5 August 2019) has a financial interest, for CEO, Executive and Non-Executive Director fees. The amount paid was \$159,516 (2018: \$241,290). Refer note 17.

# INDEPENDENT AUDIT REPORT TO THE MEMBERS OF PANCONTINENTAL OIL & GAS NL

#### Report on the Audit of the Financial Report

#### **Opinion**

We have audited the financial report of Pancontinental Oil & Gas NL ("the Company") and its subsidiaries (the Group) which comprises the consolidated statement of financial position as at 30 June 2019, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended on that date and notes to the financial statements, including a summary of significant accounting policies and the directors' declaration of the Company.

In our opinion the financial report of the Group is in accordance with the Corporations Act 2001, including:

(i) giving a true and fair view of the Group's financial position as at 30 June 2019 and of its financial performance for the year ended on that date; and

(ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.

#### **Basis for Opinion**

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under these standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of this report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the "Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Key Audit Matter

#### Exploration and evaluation expenditure

The group has incurred significant exploration and evaluation expenditure which has been capitalised. As the carrying value of exploration and evaluation expenditure represents a significant asset of the Group we

considered it necessary to assess whether facts and circumstances exist to suggest that the carrying amount of this asset may exceed its recoverable amount.

In doing so we carried out the following work in accordance with the guidelines set out in AASB 6 *Exploration for and Evaluation of Mineral Resources*. Our procedures included but were not limited to the following:

- We obtained evidence that the Group has valid rights to explore in the licence areas represented by the capitalised exploration and evaluation expenditure;
- We enquired of management and reviewed work programs to ensure that further expenditure on the licence areas in the Group's areas of interest was planned and cross referenced these discussions to ASX announcements and minutes of directors' meetings;
- We tested a sample of current year expenditure to source documents on the exploration licence areas;
- We obtained an understanding of the key processes associated with management's review of the carrying values of capitalised exploration and evaluation expenditure and challenged management's assertion that the carrying amount of capitalised expenditure after expenditure expensed was likely to be recovered in full from successful development or sale.

We also assessed the appropriateness of the disclosures included in Notes 1 and 7 to the financial report.

#### **Other Information**

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2019, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If based on the work we have performed we conclude there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Directors' Responsibility for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with the Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or cease operations, or have no realistic alternative but to do so.

# Auditor's Responsibility for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

# A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: <u>www.auasb.gov.au/Home.aspx</u>

We communicate with the directors regarding, amongst other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe those matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communications.

#### **Report on the Remuneration Report**

#### **Opinion on the Remuneration Report**

We have audited the remuneration report included in the directors' report for the year ended 30 June 2019.

In our opinion the remuneration report of Pancontinental Oil & Gas NL for the year ended 30 June 2019 complies with section 300A of the *Corporations Act 2001*.

#### **Responsibilities**

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
