#### **Forward-Looking Statements and Competent Person's Statement**

#### **Forward-Looking Statements**

- This presentation has been prepared by Sandfire Resources NL. This document contains background information about Sandfire Resources NL current at the date of this presentation. The presentation is in summary form and does not purport be all inclusive or complete. Recipients should conduct their own investigations and perform their own analysis in order to satisfy themselves as to the accuracy and completeness of the information, statements and opinions contained in this presentation.
- > This presentation is for information purposes only. Neither this presentation nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of shares in any jurisdiction.
- This presentation may not be distributed in any jurisdiction except in accordance with the legal requirements applicable in such jurisdiction. Recipients should inform themselves of the restrictions that apply in their own jurisdiction. A failure to do so may result in a violation of securities laws in such jurisdiction.
- This presentation does not constitute investment advice and has been prepared without taking into account the recipient's investment objectives, financial circumstances or particular needs and the opinions and recommendations in this presentation are not intended to represent recommendations of particular investments to particular persons. Recipients should seek professional advice when deciding if an investment is appropriate. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments.
- To the fullest extent permitted by law, Sandfire Resources NL, its officers, employees, agents and advisers do not make any representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of any information, statements, opinions, estimates, forecasts or other representations contained in this presentation. No responsibility for any errors or omissions from this presentation arising out of negligence or otherwise is accepted.
- This presentation may include forward-looking statements. Forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions which are outside the control of Sandfire Resources NL. Actual values, results or events may be materially different to those expressed or implied in this presentation. Given these uncertainties, recipients are cautioned not to place reliance on forward looking statements. Any forward looking statements in this presentation speak only at the date of issue of this presentation. Subject to any continuing obligations under applicable law and the ASX Listing Rules, Sandfire Resources NL does not undertake any obligation to update or revise any information or any of the forward looking statements in this presentation or any changes in events, conditions or circumstances on which any such forward looking statement is based.

#### **Competent Person's Statement – Mineral Resources**

The information in this report that relates to Mineral Resources is based on information compiled by Mr Ekow Taylor who is a Member of The Australasian Institute of Mining and Metallurgy. Mr. Taylor is a permanent employee of Sandfire Resources and has sufficient experience that is relevant to the style of mineralization and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Taylor consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

#### **Competent Person's Statement – Ore Reserves**

The information in this report that relates to Ore Reserves is based on information compiled by Mr Neil Hastings who is a Member of The Australasian Institute of Mining and Metallurgy. Mr Hastings is a permanent employee of Sandfire Resources NL and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Hastings consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

#### **Competent Person's Statement – Exploration Results**

The information in this report that relates to Exploration Results is based on information compiled by Mr. Shannan Bamforth who is a Member of The Australasian Institute of Mining and Metallurgy. Mr. Bamforth is a permanent employee of Sandfire Resources and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Bamforth consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

#### **Exploration and Resource Targets**

Any discussion in relation to the potential quantity and grade of Exploration Targets is only conceptual in nature. While Sandfire is confident that it will report additional JORC compliant resources for the DeGrussa Project, there has been insufficient exploration to define mineral resources in addition to the current JORC compliant Mineral Resource inventory and it is uncertain if further exploration will result in the determination of additional JORC compliant Mineral Resources.

#### Overview

- Leading ASX-listed copper-gold producer
- ► Value underpinned by consistent, low-cost copper production
- ► New chapter of **discovery success** at DeGrussa
- Exciting new Monty VMS discovery on track for maiden resource
- Strong balance sheet to fund growth and shareholder returns
- Organic growth focus through committed exploration
- Emerging international growth pipeline

# A Strong Platform for Value Creation and Growth

#### Strong, low-cost production and disciplined capital management underpinning an organically driven growth strategy

## A Strong Platform for Value Creation and Growth

### DeGrussa – Consistent, Reliable, Low-Cost

#### Sandfire's cornerstone asset – a high grade, high margin copper-gold mine

	► Location	900km north of Perth in Western Australia
	► Production	+230,000t Cu, +130,000oz Au to date
	► Mining	+1.6Mtpa via long-hole open stoping +33km of underground development to date
DEGRUSSA COPPER	Underground Mine Plan	9.6Mt at 4.4%Cu and 1.6g/tAu – 424,000t Cu, 484,000oz Au (December 2014)
MINE	► Processing	1.6Mtpa Concentrator
	► Mine Life	Mid-2021
	► Product	~270ktpa concentrate grading 24-25% Cu

# Strong and Consistent Low-Cost Copper and Gold Production

#### Strong track record of achieving guidance with excellent safety performance

PRODUCTION OVERVIEW – Key Figures								
		FY 2013	FY 2014	FY 2015	FY 2016 (guidance)			
Production	Copper (Cu)	64,017t	67,690t	67,154t	65-68kt			
	Gold (Au)	42,679oz	33,893oz	37,386oz	35-40koz			
C1 Cash Operating Costs (US\$/lb)		1.24	1.18	1.09	0.95-1.05			

#### **Recent highlights and milestones**

- ✓ Third successive year of consistent, safe and profitable production in FY2015
- Milling rates increased to 1.6Mtpa and recoveries to ~92%: plant improvements
- ✓ Underground development exceeded 33km with C4 and C5 deposits now on stream
- ✓ **Strong outlook**: FY2016 guidance 65-68,000t Cu, 35-40,000oz Au, C1 US\$0.95-1.05/lb
- ✓ First-half production 34,280t Cu, 17,305oz Au, C1 US\$0.99/lb

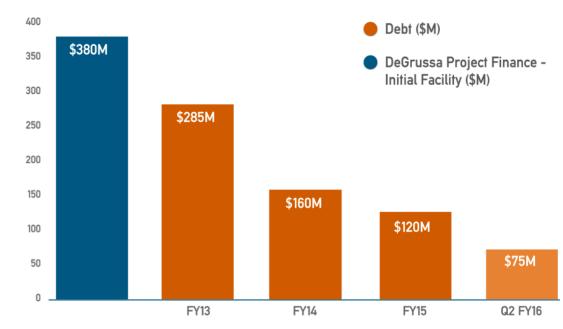

DeGrussa Copper-Gold Mine

#### Strong financial performance, disciplined capital management

FINANCIAL OVERVIEW:	FY 2013	FY 2014	FY 2015	1HFY2016				
Revenue	\$507.3M	\$525.7M	\$548.6M	\$228.3M				
Operating Cash-flow*	\$272.4M	\$249.5M	\$250.1M	\$66.2M				
Net Profit After Tax	\$88.0M	\$78.2M	\$69.0M	\$15.7M				
Earnings Per Share (basic)	57.48c	50.22c	44.18c	10.0c				
Cash and Deposits	\$77M	\$58M	\$107M	\$51.2M				
Debt	\$285M	\$160M	\$120M	\$75M				
Dividends	N/A	10c (final, unfranked)	13c (10c franked)	2c (100% franked)				
*Prior to exploration expenditure								

o exploration expenditure

**RAPIDLY REDUCING DEBT:** 

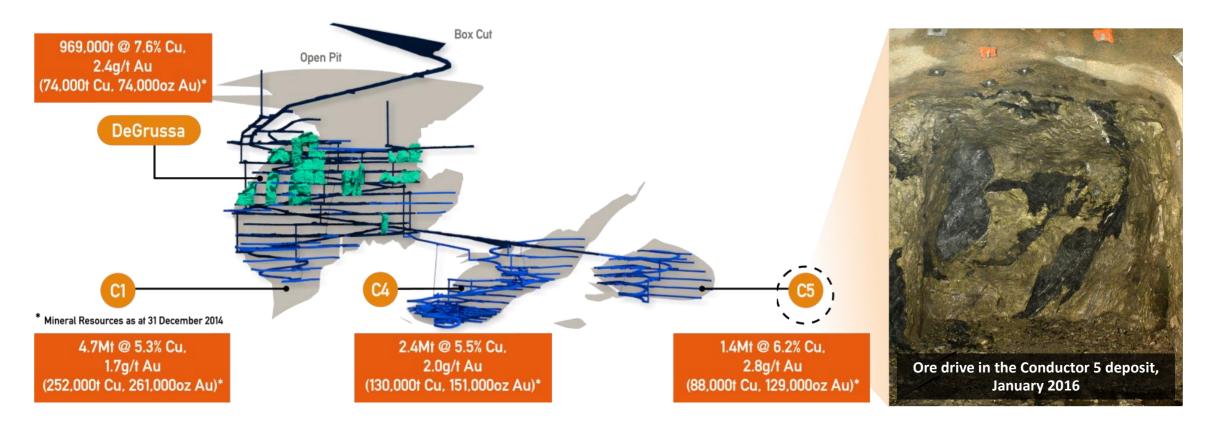

- Continued strong financial performance despite lower commodity price environment
- Lower Australian Dollar helping to offset copper price weakness
- Conservative balance sheet with debt reducing rapidly
- Ongoing commitment to shareholder returns

**Finance facility restructured with** outstanding balance reduced to \$75M at 31 December 2015

## **Robust Underground Mine Performance**

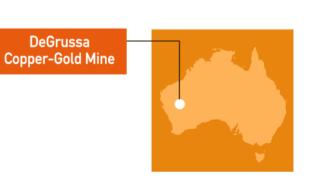

- Mining rate ~1.6Mtpa with current production from DeGrussa, C1 and C4 deposits
- Flexibility of ore sources providing opportunities to reduce waste haulage to surface
- ~33km of mine development completed to date

- Development of C4/5 decline on schedule and progressing in good ground conditions
- ► First production from C5 brought forward to June 2016 Quarter
- Underground mine development reducing: ~8000m (FY 2016), ~5000m (FY 2017) to <1000m a year (FY 2018 onwards)</li>

## **Process Plant Upgrades Delivering Strong Results**

- Excellent results from recently completed plant enhancements:
  - Copper recoveries increased as a result of flotation improvements and installation of column cell
  - Milling throughput increased by 11% following Primary Screen and Pebble Crusher improvements
- Copper recovery guidance increased to 92% for FY2016; gold recovery 45%
- Further options being explored to increase copper recoveries

## A Strong Platform for Value Creation and Growth

# **Growth through Exploration**

#### An outstanding track record of value-creation through exploration

As at February 11, 2016 \$9.00 \$8.00 \$7.00 \$6.00 \$5.00 **DeGrussa Discovery** Monty JV Discovery First diamond hole DGDD-001 \$4.00 **Discovery hole** intersects 53.2m at 17.3% Cu. \$3.00 2.5g/t Au and 25.1m at 3.4% Cu \$2.00 and 1.6g/t Au \$1.00 ANDFIRE \$0.00 2004 2006 2008 2010 2012 2014 2016

- ► DeGrussa discovery: drove Sandfire's share price from ~6c to ~\$8
- Underpinned creation of significant mid-tier copper producer
- New high-grade VMS discovery at Monty (Jun 15): price support amidst volatile and challenging market conditions
- Organically-driven growth strategy continues to deliver where to next?

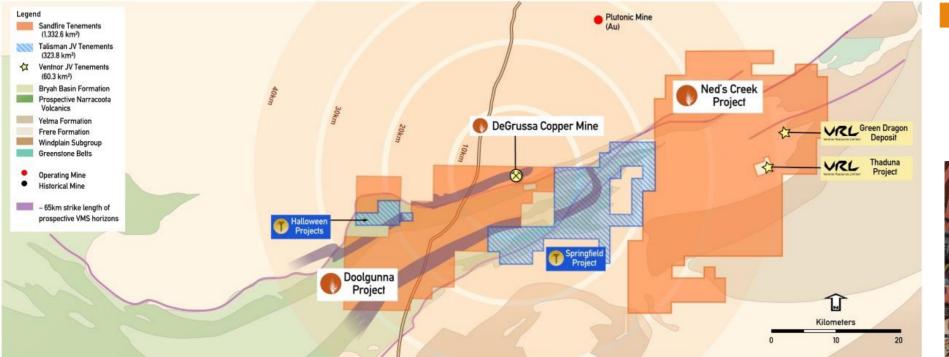

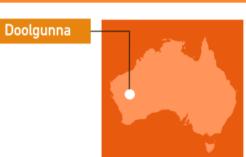

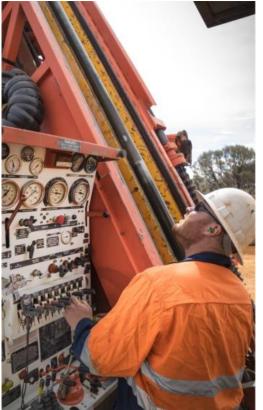

### **Doolgunna – World-Class Exploration Upside**

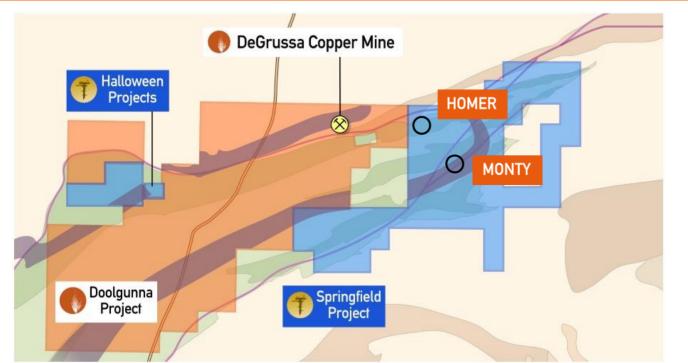

- Dominant 1,600km<sup>2</sup> ground position in WA's premier emerging copper belt
- Only operating processing facility in the District
- Outstanding potential: 65km strike length of prospective VMS horizons
- Significant new high-grade discovery within Springfield Project (Talisman Joint Venture) upgrades district-wide VMS potential – multiple emerging target areas

## **Springfield Project – Talisman Joint Venture**

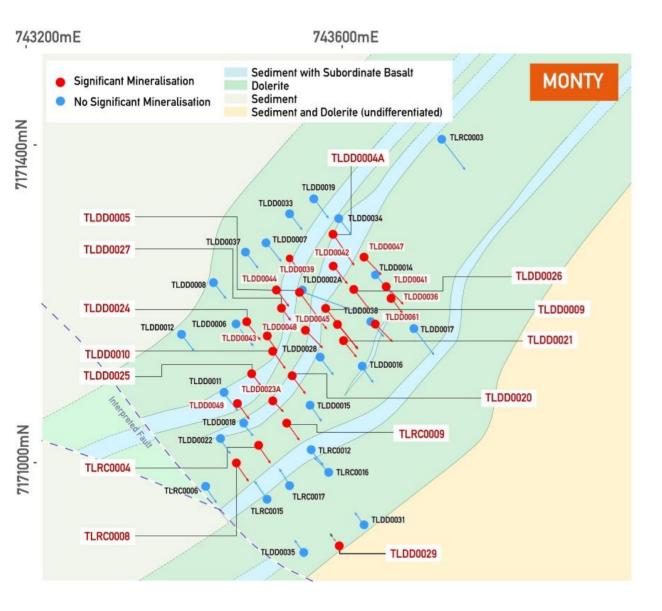

- 70% interest held in joint venture with Talisman Mining (ASX: TLM) – 30%
- Two key areas of exploration focus
- Monty 10km east of DeGrussa
  - Significant new high-grade discovery first discovery outside of DeGrussa
  - Opens up highly prospective +5km VMS horizon along strike – exploration continuing
  - Resource drilling underway
  - Maiden resource on track for March 2016 Quarter
- Homer 4km east of DeGrussa:
  - Package of exhalative potentially hosting VMS stratigraphy identified within DeGrussa Mine Corridor
  - Analogous to host sequence seen at DeGrussa
  - Exploration programs continuing

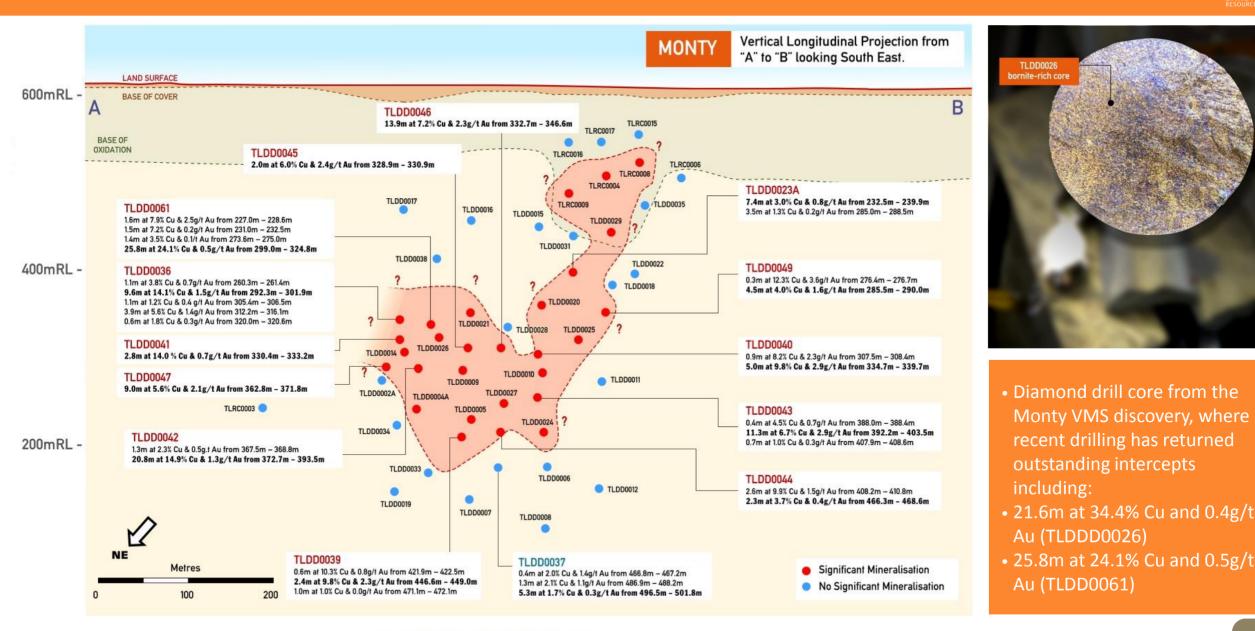

## Monty – High-grade VMS Copper-Gold Discovery

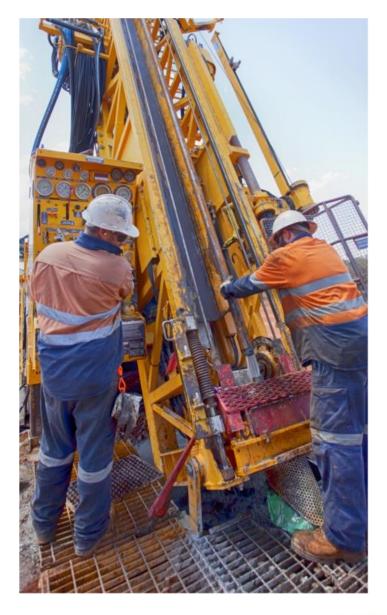

- Resource drilling in progress maiden Mineral
  Resource on track for end of March 2016 Quarter
- Drilling continues to support interpretations of Monty mineralisation (Upper and Lower Zone)
- Further high-grade results from ongoing drilling of the Lower Zone with assays including:
  - 20.8m @ 14.9% Cu and 1.3g/t Au from 372.7m down-hole (TLDD0042);
  - 11.3m @ 6.7% Cu and 2.9g/t Au from 392.2m downhole (TLDD0043); and
  - 13.9m @ 7.2% Cu and 2.3g/t Au from 332.7m downhole (TLDD0046)
- High-grade bornite zone recently expanded with significant intercepts to date including:
  - 21.6m @ 34.4% Cu and 0.4g/t Au from 339.4m down-hole (TLDD0026); and
  - 25.8m @ 24.1% Cu and 0.5g/t Au from 299.0m down-hole (TLDD0061)

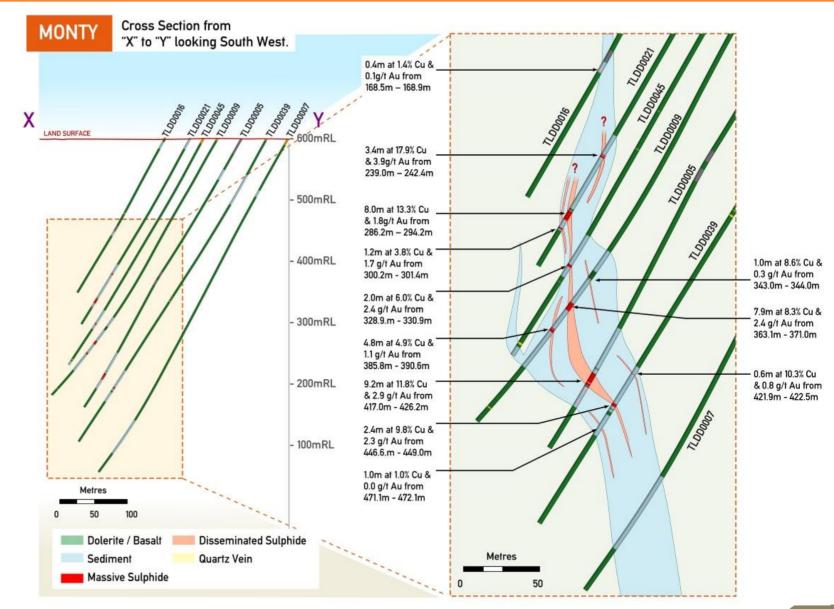

#### **Monty – Vertical Longitudinal Projection**

#### **Monty – Cross-Section Projection**

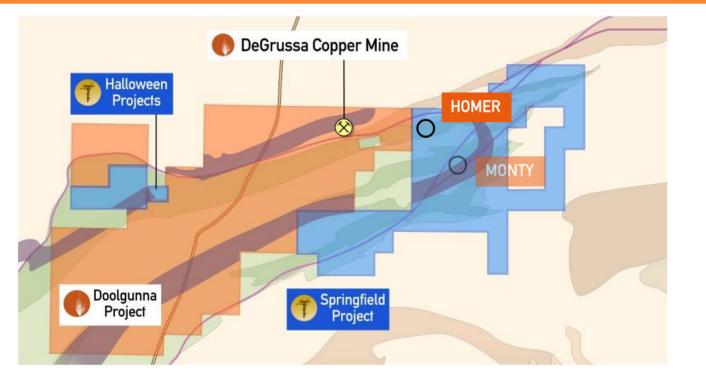

## **Homer – the Next Discovery Opportunity?**

- High priority area located 4km directly east of DeGrussa – immediate extension of DeGrussa Mine Corridor
- Three deep diamond holes completed to date
- Drilling along this horizon has intersected intersected haematitic exhalite with jasper clasts – interpreted to be C5 host horizon
- Follow-up DHEM surveys and further drilling planned
- Excellent potential to discover another centre of VMS mineralization

## **Doolgunna – A World-Class Exploration Opportunity**

- Maiden resource imminent at Monty, with exploration gathering momentum across immediate 5km long VMS Monty Trend and at Homer
- VMS exploration underway along the length of the prospective sequence on 100% SFR and joint venture tenements
- Exploration programs underway targeting structurally-hosted copper deposits at Ned's Creek and Thaduna JV

## A Strong Platform for Value Creation and Growth

## **Australian Regional Exploration Projects**

#### Targeting world-class discoveries in Australia's premier exploration provinces

#### **EXPLORATION:**

**Queensland Base Metals** 

- > 2,400km<sup>2</sup> in Mt Isa-Cloncurry province
- 100km strike length with outstanding potential for Broken Hill/Canningtonstyle and IOCG mineralisation
- ▶ Key targets include Breena Plains, Altia and Black Rock exploration ongoing

#### **EXPLORATION:**

**NSW Base Metals** 

- > 2,100km<sup>2</sup> in Lachlan Fold Belt
- Outstanding potential for porphyry mineralisation
- ► Multiple targets at Wingrunner, Marsden South, Bland Creek
- ▶ Initial round of drilling completed in 2015, follow-up being planned
- Portfolio recently expanded with Temora and Currumburrama acquisitions

#### **EXPLORATION:**

South Australian IOCG Project

- ▶ 640km<sup>2</sup> in Gawler Craton
- Potential for IOCG copper-gold discoveries

# **Investment in Tintina Resources / Black Butte Copper Project**

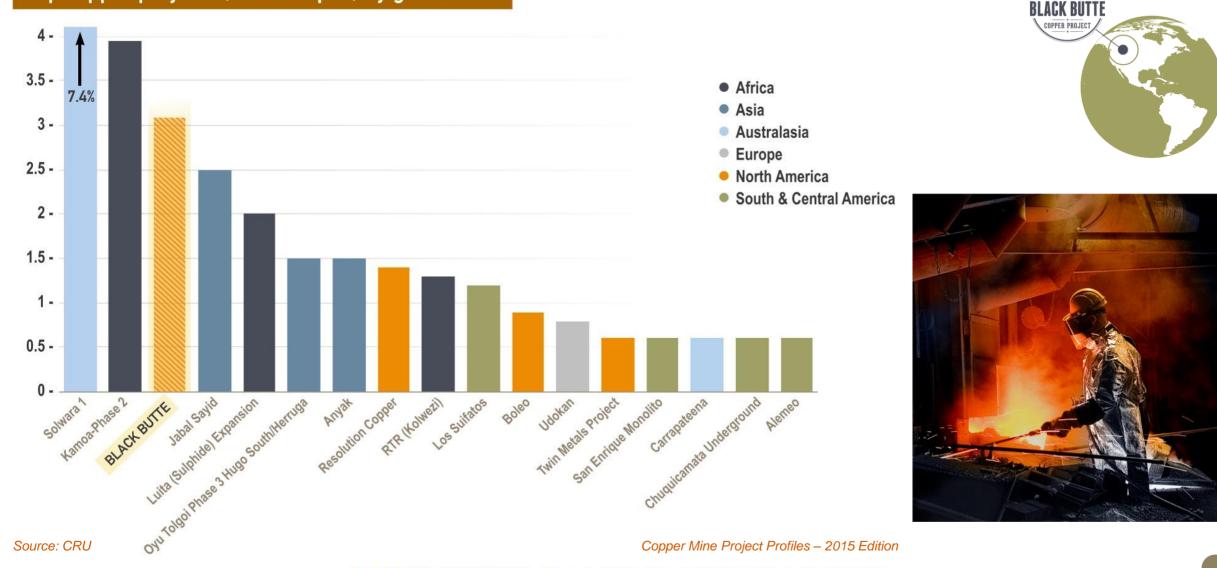

- 57% stake in copper development company Tintina Resources (TSX-V: TAU)
- Developing the Black Butte Copper Project, central Montana, USA
- Advanced, high quality copper project in stable jurisdiction:
  - NI 43-101 Measured and Indicated Resources of 15.7Mt grading 3.4% Cu for 533,600t of contained copper
  - NI 43-101 Inferred Resources of 2.3Mt grading 2.8% Cu for 63,500t of contained copper
- Outstanding near-mine and district-wide exploration potential
- Development studies underway
- Application for Mine Operating Permit (MOP) for Johnny Lee copper deposit lodged with Montana Department of Environmental Quality (DEQ)

## **Tintina Resources – A Top-10 Global Copper Opportunity**

#### Top copper projects (undeveloped) by grade, % Cu

## A Strong Platform for Value Creation and Growth

# Sustainability – DeGrussa Solar Power Project

#### First-mover renewable energy project with potential to reduce costs and CO<sub>2</sub> emissions

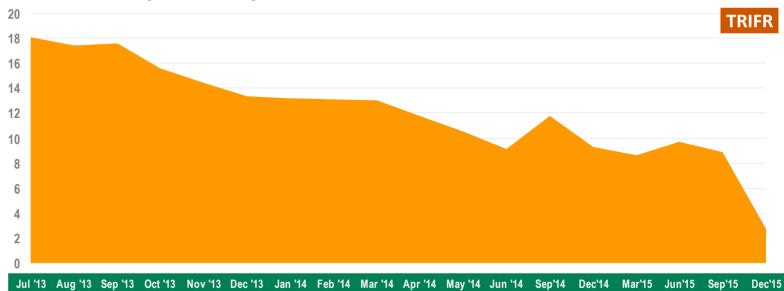

- 10.6MW solar power station being constructed at DeGrussa
- ► To be fully integrated with existing 19MW diesel-fired power station
- ▶ \$40M project being financed, developed and operated by international consortium
- Establishes DeGrussa as potential world-leading reference site for use of renewables
- Expected to be one of the largest integrated off-grid solar power systems in the global mining industry
- Expected reduction in CO<sub>2</sub> emissions by 12,000 tonnes per year
- Completion targeted by March 2016

# Safety – Our Number One Priority

#### Steady improvement in safety performance over the past two years

- Safety improvement trend continued in 2015, reflecting strong leadership and embedment of systems and processes
- Increased focus on risk management and assessment processes implemented

- Board oversight and governance enhanced
- Contractor activities fully embedded into the Sandfire business and processes
- Ongoing initiatives have included further development of safety systems, improved safety leadership, and enhancement of safety culture

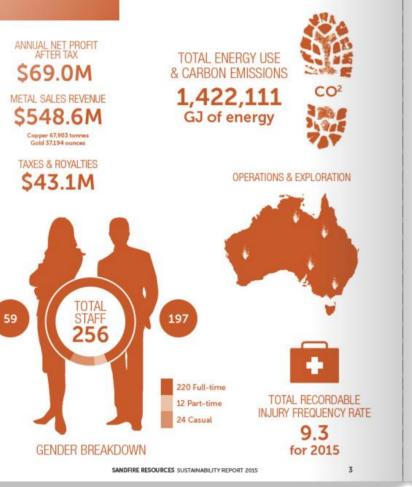

#### **2015 Sustainability Report**

#### PERFORMANCE HIGHI IGHTS

Total copper production for the year was 67.154 tonnes and gold production was 37,386 ounces at a C1 cash operating cost of US\$1.09 per pound of payable copper, in line with market guidance. This is a great credit to our operations team at DeGrussa.

#### CHAIRMAN & MANAGING DIRECTOR'S REPORT

At Sandfire, we recognise that we are part of a global community. As part of this community, we are committed to operating our business in a sustainable manner that ensures our people are safe and wellsupported, local communities prosper and the environment is well cared for so that it benefits future generations

The mining sector remains a significant local and international industry as global demand for resources continues to improve living standards and assist economic growth. The industry is facing complex challenges such as lower commodity prices. climate change impacts, community acceptance. environmental concerns and the need for companies to show leadership and stewardship of natural resources. However, these challenges can also be opportunities - and the industry is in a unique position to respond

Companies can be courageous and innovative in their approach to sustainability, and Sandfire has both the opportunity and the capacity to be a key participant in this approach. We are committed to continuously improving the way we do business.

This year marks an important milestone for Sandfire as we publish our first Sustainability Report. We are proud of our achievements and developments in this area, and we are delighted to outline them for you in this report. We have committed to report in line with the G4 Global Reporting Initiative (GRI), the leading framework for sustainability reporting, which demonstrates our commitment to adopt best practice.

The 2015 financial year has been successful and productive for us on the back of a continued strong operational performance by our flagship DeGrussa Copper-Gold Mine in Western Australia.

Sandfire achieved its third successive year of strong profitability following the start-up of the DeGrussa operation. We posted an annual net profit after tax of \$69.0 million on strong sales revenue of \$548.6 million from metal sales of 67,903 tonnes of copper and 37,194 ounces of gold.

4

This strong performance has given Sandfire a healthy financial foundation from which to fund our ongoing growth initiatives, including mine development. minerals exploration and the putsuit of business development opportunities. It ensures that Sandfire can continue to maximise the opportunity to create value for our stakeholders.

For example, in the year ended 30 June 2015 we paid (or have payable) royalties and tax of \$43.1 million to the Government and Native Title Claimant Groups

we never lose sight of the vital role that our people. including our contractors, play in driving sustainable performance. Their safety will always be our greatest priority.

We have also worked hard to support the local communities in the region surrounding the DeGrussa

Sandfire currently supports a wide variety of local community initiatives including the Meekatharra Outback Festival and local Aboriginal community development initiatives. We have also sponsored community groups including Meekatharra Youth and the Meekatharra Hospital Auxiliary.

Aboriginal communities in the areas in which we operate. To date. Sandfire has carried out over 50 Aboriginal Heritage surveys across our tenements These surveys are carried out in conjunction with members of the Native Title Claimant Groups. Traditional Owners, Aboriginal Representative Councils and professional anthropologists and archaeologists. Land Access Agreements have been negotiated and implemented to deliver substantial benefits to members of the Native Title Claimant Groups and surrounding communities.

Sandfire also upholds high standards of environmental responsibility.

A significant achievement for the year was the signing an agreement to construct a 10.6 megawatt solar power station at DeGrussa. The DeGrussa Solar Power Initiative is being pursued under an agreement between Sandfire and juwi Renewable Energy, one of the world's leading providers of stateof-the-art, utility-scale renewable energy projects.

This \$40 million project will be the largest integrated off-grid solar and battery storage facility in Australia, and one of the largest in the mining industry worldwide. It will help to showcase the benefits of renewables in reducing operating costs and improving environmental performance in the resource sector.

#### RE RESOURCES NL

While financial and operational success is important

Mine so they receive real benefit from our activities.

Centre, Karalundi School, Meekatharra sporting clubs

We are committed to working closely with the

REPORT

# **Summary and Outlook**

Positioned for growth, success and value creation

- Consistent, low-cost copper-gold production
  - FY2015 performance: 67,154t Cu, 37,386oz gold at C1 US\$1.09/lb
  - FY2016 guidance: 65-68,000t Cu, 35-40,000oz Au at C1 US\$0.95-1.05/lb
- New chapter of discovery success and growth at DeGrussa
  - High-grade Monty VMS discovery re-rates district exploration potential
  - Maiden resource estimate imminent
- Strong cash flow funding growth and shareholder returns
  - Continued dividend stream for shareholders
  - Committed exploration to further extend mine life
  - Cornerstone position in high-grade USA copper project
- Emerging international and domestic growth pipeline

A premier Australian copper-gold company

## Mineral Resource, Ore Reserve and Mine Plan

#### Maiden C4 Ore Reserve and Mineral Resource additions extend mine life to mid-2021

- Previously announced increases to high-grade Underground Mineral Resource incorporated into DeGrussa Mine Plan, extending mine life to mid-2021
- Maiden Ore Reserve reported for C4 deposit 2Mt grading 4.5% Cu and 1.5g/t Au
- DeGrussa Ore Reserve updated based on mining depletion to 31 December 2014 to 10.6Mt grading 3.5% Cu and 1.3g/t Au for 376,000t of contained copper and 456,000oz of contained gold

Table 1 – December 2014 Comparison of the Underground Mine Plan, Mineral Resource and Ore Reserve									
DeGrussa Underground Mine	Tonnes (Mt)	Copper (%)	Gold (g/t)	Contained Copper (t)	Contained Gold (oz)				
Mine Plan	9.6	4.4	1.6	424,000	484,000				
Mineral Resource	9.5	5.7	2.0	546,000	616,000				
Ore Reserve	7.8	4.4	1.5	343,000	368,000				
DeGrussa Underground Mine by orebody	Tonnes (Mt)	DG (Mt)	C1 (Mt)	C4 (Mt)	C5 (Mt)				
Mine Plan	9.6	1.1	4.7	2.2	1.5				
Mineral Resource	9.5	1.0	4.7	2.4	1.4				
Ore Reserve	7.8	1.1	4.6	2.0	-				
Table 2 – December 2014 Ore Reserve
