#### Forward-Looking Statements and Competent Person's Statement

#### **Forward-Looking Statements**

- This presentation has been prepared by Sandfire Resources NL. This document contains background information about Sandfire Resources NL current at the date of this presentation. The presentation is in summary form and does not purport be all inclusive or complete. Recipients should conduct their own investigations and perform their own analysis in order to satisfy themselves as to the accuracy and completeness of the information, statements and opinions contained in this presentation.
- This presentation is for information purposes only. Neither this presentation nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of shares in any jurisdiction.
- This presentation may not be distributed in any jurisdiction except in accordance with the legal requirements applicable in such jurisdiction. Recipients should inform themselves of the restrictions that apply in their own jurisdiction. A failure to do so may result in a violation of securities laws in such jurisdiction.
- This presentation does not constitute investment advice and has been prepared without taking into account the recipient's investment objectives, financial circumstances or particular needs and the opinions and recommendations in this presentation are not intended to represent recommendations of particular investments to particular persons. Recipients should seek professional advice when deciding if an investment is appropriate. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments.
- To the fullest extent permitted by law, Sandfire Resources NL, its officers, employees, agents and advisers do not make any representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of any information, statements, opinions, estimates, forecasts or other representations contained in this presentation. No responsibility for any errors or omissions from this presentation arising out of negligence or otherwise is accepted.
- This presentation may include forward-looking statements. Forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions which are outside the control of Sandfire Resources NL. Actual values, results or events may be materially different to those expressed or implied in this presentation. Given these uncertainties, recipients are cautioned not to place reliance on forward looking statements. Any forward looking statements in this presentation speak only at the date of issue of this presentation. Subject to any continuing obligations under applicable law and the ASX Listing Rules, Sandfire Resources NL does not undertake any obligation to update or revise any information or any of the forward looking statements in this presentation or any changes in events, conditions or circumstances on which any such forward looking statement is based.

#### Competent Person's Statement - Mineral Resources

The information in this report that relates to Mineral Resources is based on information compiled by Mr Ekow Taylor who is a Member of The Australasian Institute of Mining and Metallurgy. Mr. Taylor is a permanent employee of Sandfire Resources and has sufficient experience that is relevant to the style of mineralization and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Taylor consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

#### Competent Person's Statement - Ore Reserves

The information in this report that relates to Ore Reserves is based on information compiled by Mr Neil Hastings who is a Member of The Australasian Institute of Mining and Metallurgy. Mr Hastings is a permanent employee of Sandfire Resources NL and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Hastings consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

#### **Competent Person's Statement – Exploration Results**

The information in this report that relates to Exploration Results is based on information compiled by Mr. Shannan Bamforth who is a Member of The Australasian Institute of Mining and Metallurgy. Mr. Bamforth is a permanent employee of Sandfire Resources and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Bamforth consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

#### **Exploration and Resource Targets**

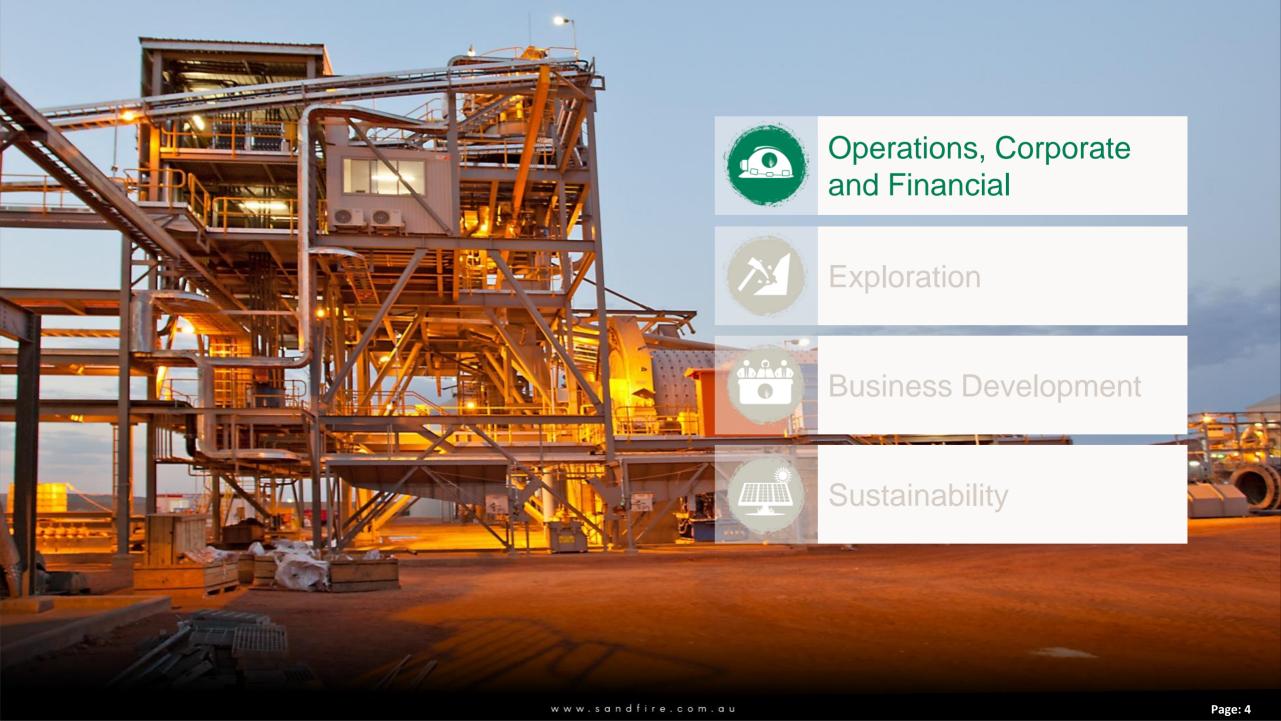

Any discussion in relation to the potential quantity and grade of Exploration Targets is only conceptual in nature. While Sandfire is confident that it will report additional JORC compliant resources for the DeGrussa Project, there has been insufficient exploration to define mineral resources in addition to the current JORC compliant Mineral Resource inventory and it is uncertain if further exploration will result in the determination of additional JORC compliant Mineral Resources.

#### **Our Core Values**

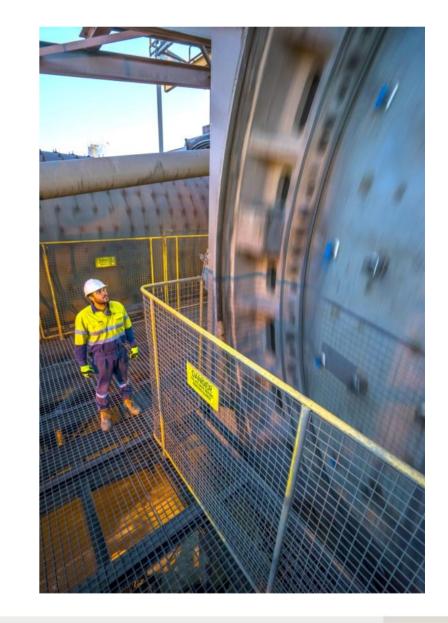

# Operations, Corporate and Financial

- ► Fourth successive year of consistent, safe and profitable production
- ► Record full-year production for FY2016 of 68,202t Cu, 37,612oz Au, C1 US\$0.95/lb
- Strong performance from both the underground mine and processing plant
- Annual net profit after tax of \$46.4M on revenue of \$497.2M
- Annual fully-franked dividend payout of 11.0cps
- Outstanding balance of finance facility reduced to \$50M
- FY2017 outlook: 65-68kt Cu, 35-40koz Au at C1 of US\$0.95-1.05/lb

# DeGrussa Mine (WA) - Consistent, Reliable, Low-Cost

- ✓ Milling rates maintained at 1.6Mtpa and recoveries targeted at ~92% (LOM)
- ✓ **Decline** development completed to **LOM design**: mine development now focused on level development
- ✓ **Record full-year production** for FY2016 of 68,202t Cu, 37,612oz Au, C1 US\$0.95/lb
- ✓ Strong, consistent outlook: FY2017 guidance 65-68,000t Cu,
  35-40,000oz Au, C1 US\$0.95-1.05/lb

267,063t Cu 151,570oz Au

The amount of metal-inconcentrate produced at DeGrussa over the past four financial years

PRODUCTION OVERVIEW – Key Figures							
		FY 2013	FY 2014	FY 2015	FY 2016	FY 2017 (guidance)	
Duaduation	Copper (Cu)	64,017t	67,690t	67,154t	68,202t	65-68kt	
Production	Gold (Au)	42,679oz	33,893oz	37,386oz	37,612oz	35-40koz	
C1 Cash Operating Costs (US\$/lb)		1.24	1.18	1.09	0.95	0.95-1.05	

### Robust Underground Mine – All Lenses Now On Stream

DeGrussa Underground Mine	Tonnes (Mt)	Copper (%)	Gold (g/t)	Contained Copper (t)	Contained Gold (oz)
Mine Plan	8.1	4.4	1.7	357,000	443,000
Ore Reserve	8.0	4.4	1.7	353,000	441,000
Mineral Resource	7.8	5.7	2.1	443,000	536,000

- Mining rate set to continue at 1.6Mtpa
- Production now sourced from all four lenses (DeGrussa, C1, C4, C5)
- Blending of ore feed allows process optimisation
- 40km of mine development completed
- C4 and C5 declines completed to LOM

As at 31 December 2015. Includes underground stockpiles.
Refer ASX Announcement "DeGrussa Mine Plan, Mineral Resource and Ore Reserve Update", 14 April 2016

# Strong Financial Performance, Disciplined Capital Management

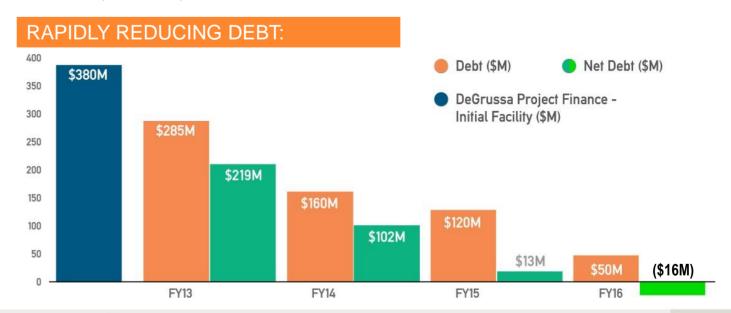

- ▶ Consistent financial performance despite subdued commodity price environment
- ▶ Revenues to date of more than \$2 billion
- > ~\$1 billion to date in operating cash flows
- ► Repaid \$330M or 87% of our original \$380M debt facility
- ▶ Net cash positive at 30 June 2016
- ▶ \$53M dividends to date
- ► Substantial ~\$30M p.a. exploration budget
- ▶ No equity raisings since 2010
- ▶ Strong capital management: issued capital has only increased by 5% from 149.4M shares in 2011 to 157.7M shares currently

FINANCIAL OVERVIEW:	FY 2013	FY 2014	FY 2015	FY2016
Revenue	\$507.3M	\$525.7M	\$548.6M	\$497.2M
Operating Cash-flow*	\$272.4M	\$249.5M	\$250.1M	\$166.5M
Net Profit After Tax	\$88.0M	\$78.2M	\$69.0M	\$46.4M
Earnings Per Share (basic)	<b>57.48</b> c	<b>50.22</b> c	44.18c	30.54c
Cash and Deposits	\$77M	\$58M	\$107M	\$66M
Debt	\$285M	\$160M	\$120M	\$50M
Dividends	N/A	10c (final, unfranked)	13c (10c franked)	11c (100% franked)

<sup>\*</sup>Prior to exploration expenditure

### The Emerging Opportunity in Copper

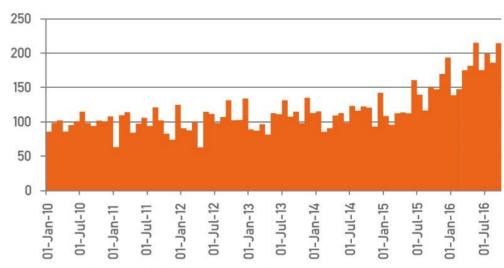

#### Chinese demand has remained strong and is picking up....

- ► Several investment banks now predicting that copper may be the next commodity to stage a price recovery
- ► UBS estimates that there has been an ongoing improvement in China's real demand for copper driven by grid and property investment
- ► The strength of China's property market is now flowing into fit-out demand, which should be sustained into 2017

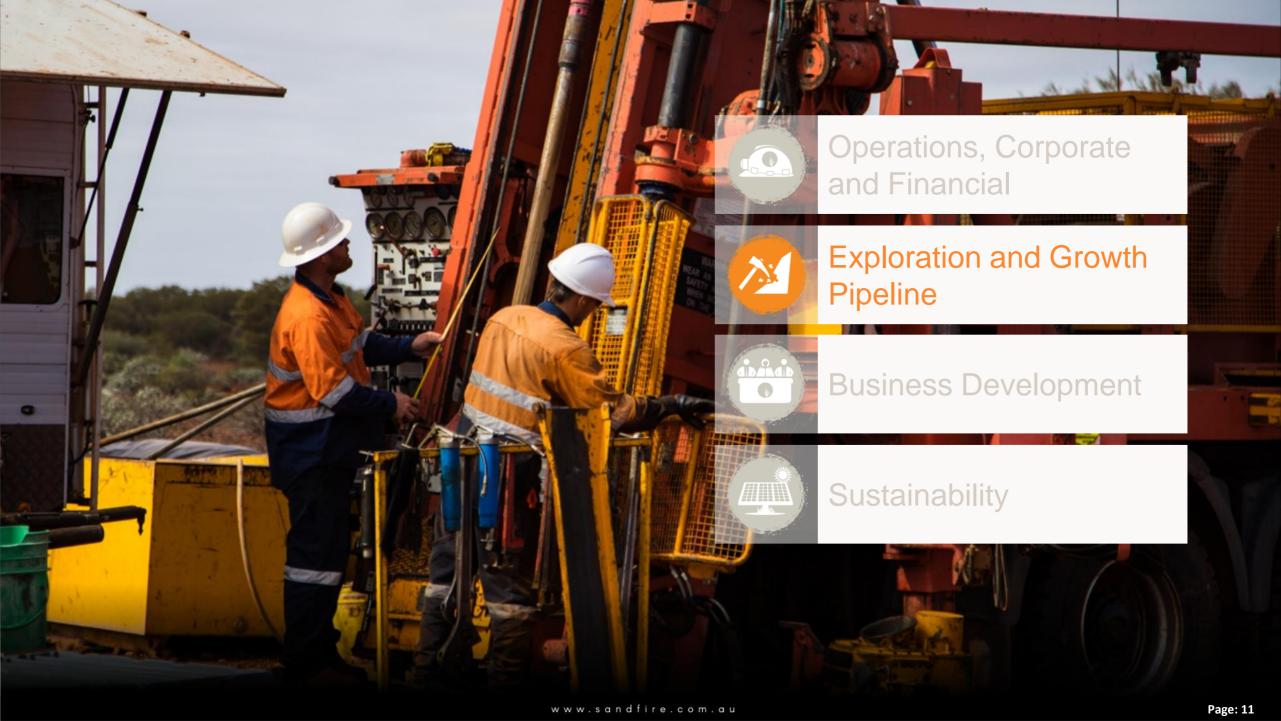

#### The Peru supply surge is behind us...

Source: Bloomberg, Peru's copper exports, kt/mth.

#### ....as the supply surge abates and is absorbed....

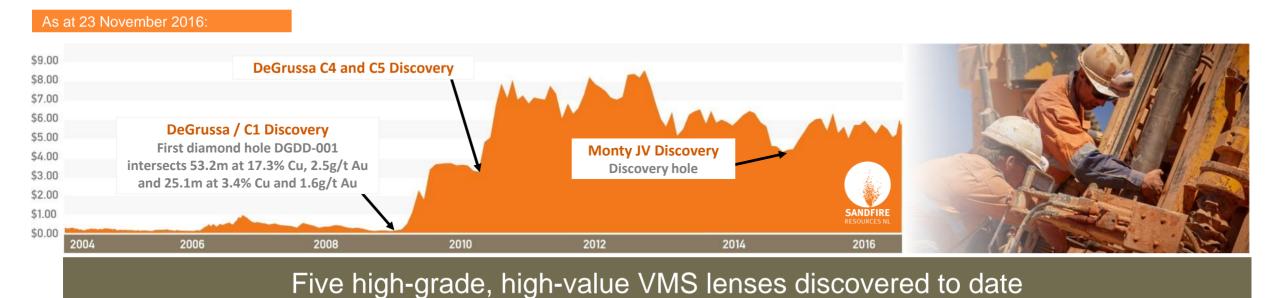

- ► The ~4.5% increase in supply in 2016 has mostly come from major expansions in Peru, which are now nearing full ramp-up
- ► Supply growth is now forecast at just 0.3% y/y in 2017
- ► Lack of investment in supply is likely to be a key price driver in 2017

## An Outstanding Track Record of Growth through Exploration

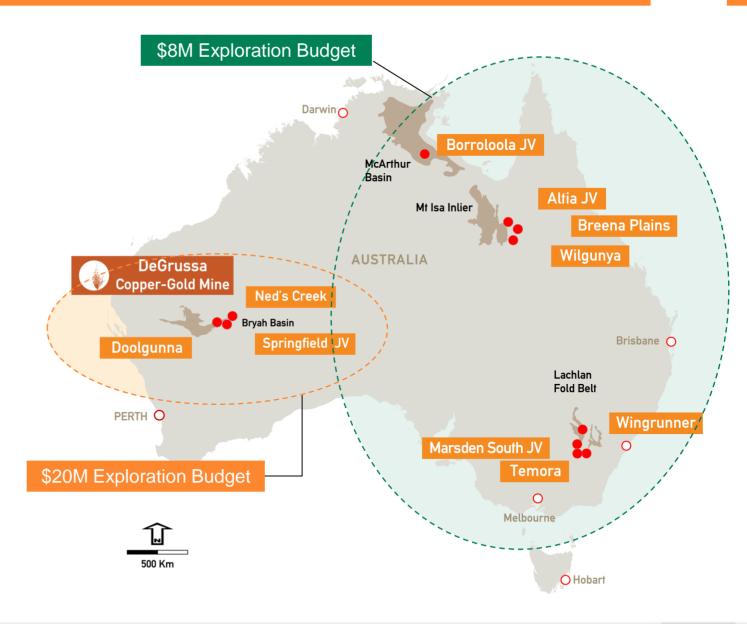

- ▶ DeGrussa discovery: a game-changer which drove Sandfire's share price from ~6c to ~\$8
- ▶ Underpinned creation of significant ~\$1 billion mid-tier copper producer
- ► Sparked a pegging rush and renewed interest in junior exploration sector post-GFC established a new VMS copper-gold province in Western Australia
- ▶ New ultra-high-grade VMS discovery at Monty (Jun 15): provided price support amidst volatile and challenging market conditions
- ► Organically-driven growth strategy continues to deliver

## Exploration – It's in our DNA

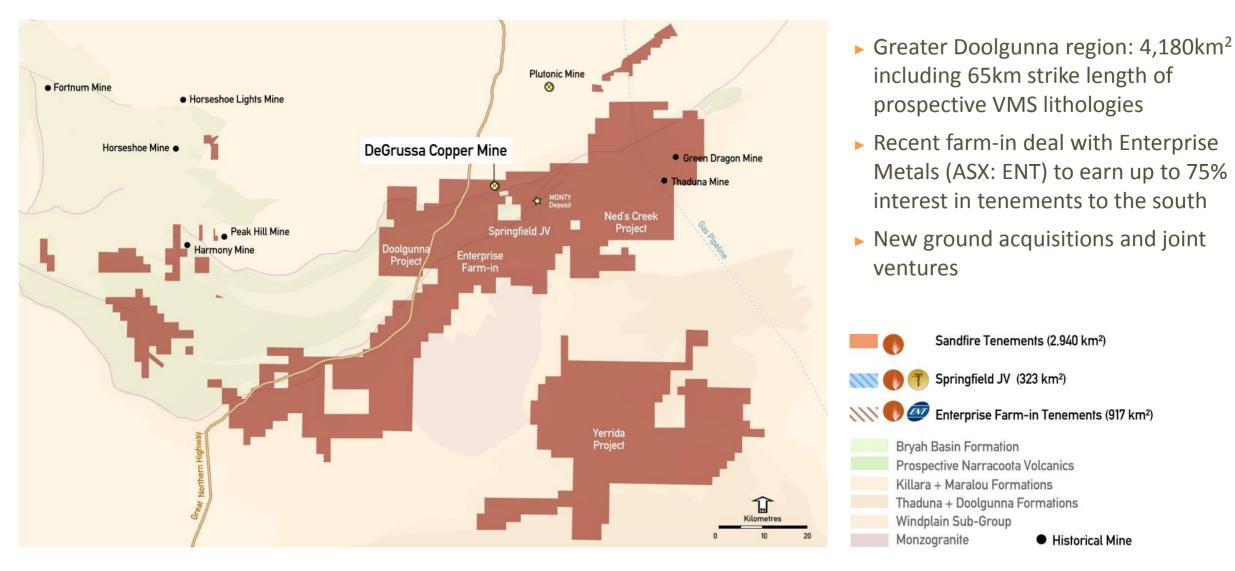

- ► Underpinned by strong ongoing cash-flows, Sandfire has invested up to \$30M a year in exploration for the past five years:
  - \$20M at DeGrussa-Doolgunna
     (Western Australia) FY2017
  - \$8M on our exploration initiative on Australia's Eastern Seaboard – FY2017
- ► Focusing on belts with the potential to deliver Tier-1 assets
- Considered, diligent and technically driven approach
- An accomplished geoscientific team:
  - Cutting-edge technologies
  - Innovative thinking and creative approach
  - Access to world-class consulting expertise

## Doolgunna VMS Province – Exploration Overview

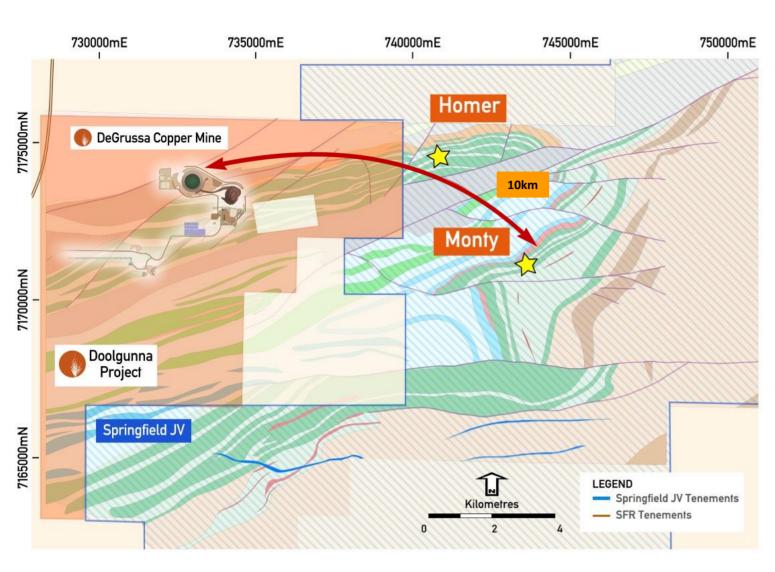

► A dominant 4,180 square kilometre exploration footprint in a world-class VMS province

### Development Pipeline – Monty Deposit

<sup>\*</sup> Refer ASX Announcement "DeGrussa Mine Plan, Mineral Resource and Ore Reserve Update", 14 April 2016

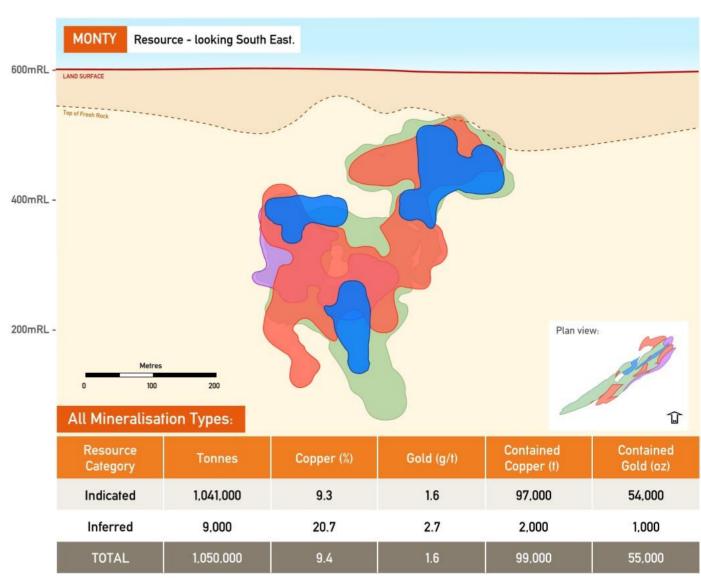

- ► Sandfire is Manager of the Springfield JV interests Sandfire 70% / Talisman 30%
- Ultra-high grade VMS deposit discovered mid-2015
- Maiden JORC 2012 Indicated and Inferred
   Mineral Resource estimate 1.05Mt at 9.4%
   Cu, 1.6g/t Au: \*
  - 99,000t of copper, 55,000oz gold
  - 99% Indicated category, available for conversion to Ore Reserves
- One of the highest grade VMS deposits discovered anywhere in the world in the past three decades
- Confirms the potential for the overall Doolgunna VMS field to host multiple centres of mineralisation

# Development Pipeline – Monty Deposit

- ▶ 16.42km² Mining Lease Application lodged
- ▶ High-level studies completed
- Preferred box-cut location selected
- ► Feasibility Study well advanced \$3.9M (100%) budget:
  - Metallurgical testwork for comminution and flotation
  - Geotechnical and structural geology studies well advanced
  - Mine design engineering commenced
  - Proposed haul road route under investigation
  - ▶ DeGrussa and Monty integration
- ▶ Base case to model DeGrussa and Monty at total of 1.6Mtpa mining rate

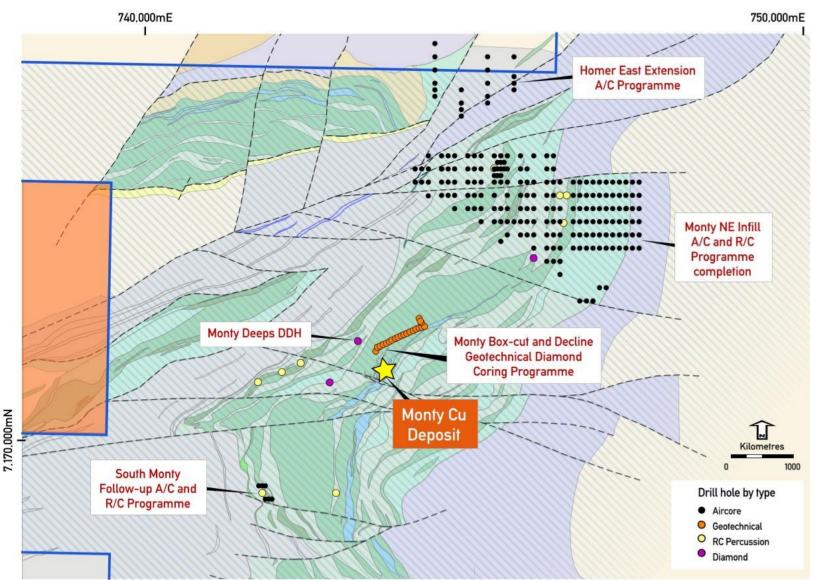

**Maiden Monty Mineral Resource** 

#### Springfield Joint Venture – Unlocking the Next Discovery Opportunity

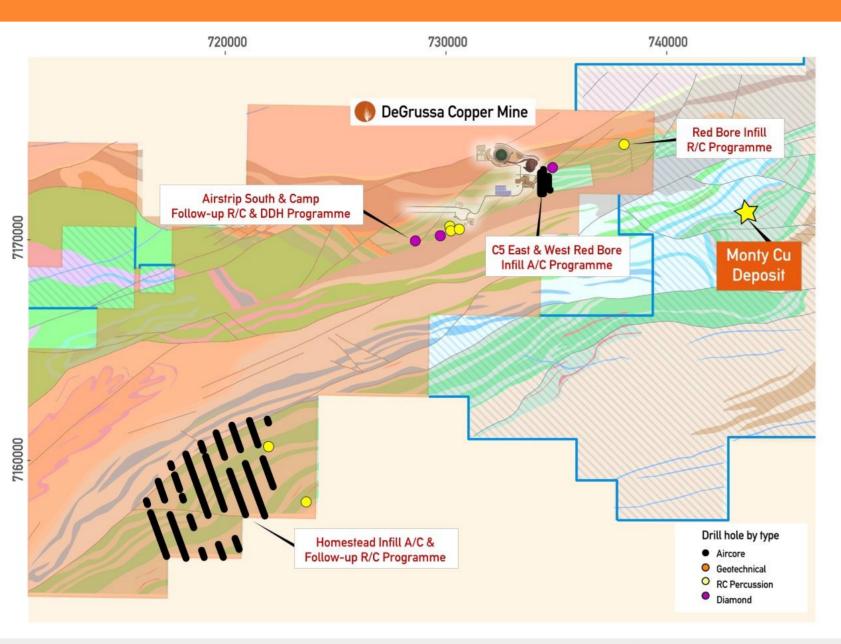

- Monty box-cut and decline geotechnical drilling
- Diamond drilling to test the areas down-dip and down-plunge of Monty, including Monty Deeps
- Systematic aircore and RC drilling, including at Monty NE, South Monty, Southern Volcanics, Homer East
- DHEM surveys of all RC and diamond drill-holes
- Orientation Induced Polarisation (IP) geophysical survey over Monty deposit
- Structural model development

# Doolgunna Exploration – 100%-owned Ground

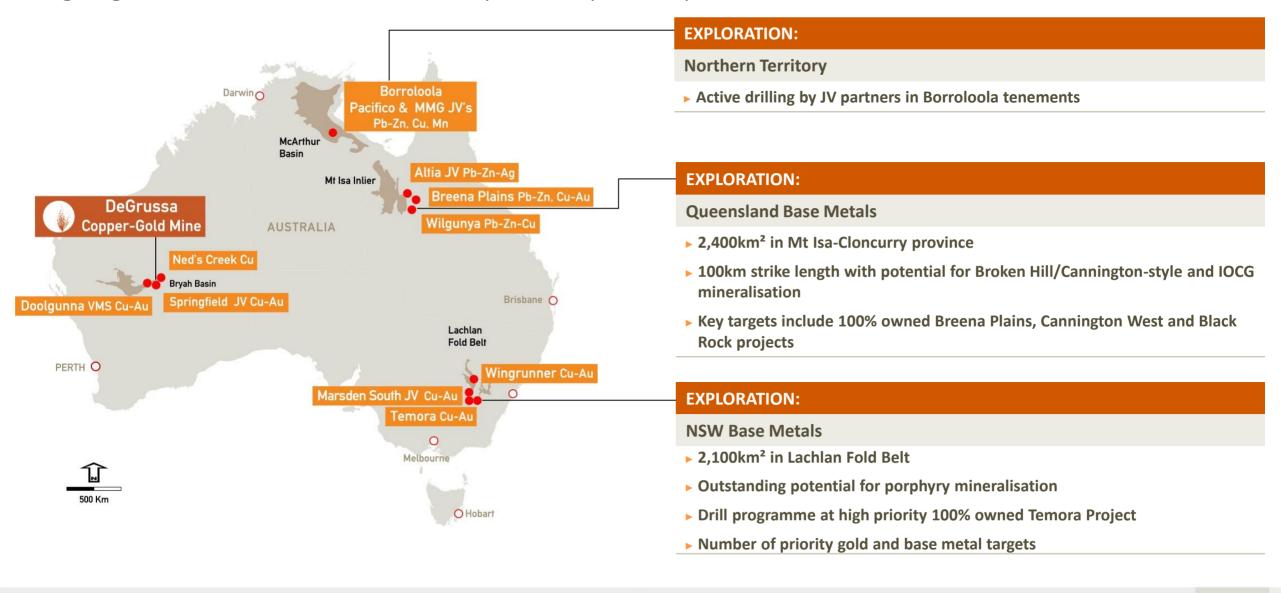

- Ongoing diamond drilling in near-mine environment focused on C5 East prospect – lithologies and alteration consistent with proximity to VHMS mineralisation
- Diamond and RC drilling to test geochemical anomalies in Airstrip South, Camp and Homestead prospects
- Updated geological model
   through Homestead and Red
   Bore prospect in progress

# Australian Regional Exploration Projects

Targeting world-class discoveries in Australia's premier exploration provinces

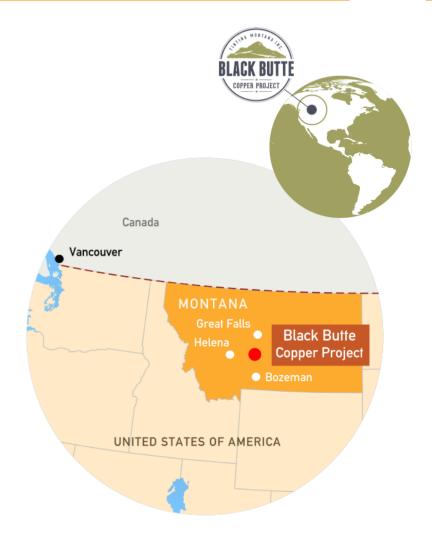

### Investment in Tintina Resources – Black Butte Copper Project

- ► 61% stake in copper development company Tintina Resources (TSX-V: TAU) ~\$24M invested to date
- ▶ Developing the Black Butte Copper Project, central Montana, USA
- Advanced, high quality copper project in stable jurisdiction:
  - NI 43-101 Measured and Indicated Resources of 15.7Mt grading 3.4% Cu for 533,600t of contained copper
  - NI 43-101 Inferred Resources of 2.3Mt grading 2.8% Cu for 63,500t of contained copper
- One of the top-10 undeveloped copper projects worldwide by grade
- Outstanding near-mine and district-wide exploration potential
- Development studies underway
- Application for Mine Operating Permit (MOP) for Johnny Lee copper deposit lodged with Montana Department of Environmental Quality (DEQ)

## 2016 Safety – Our Priority

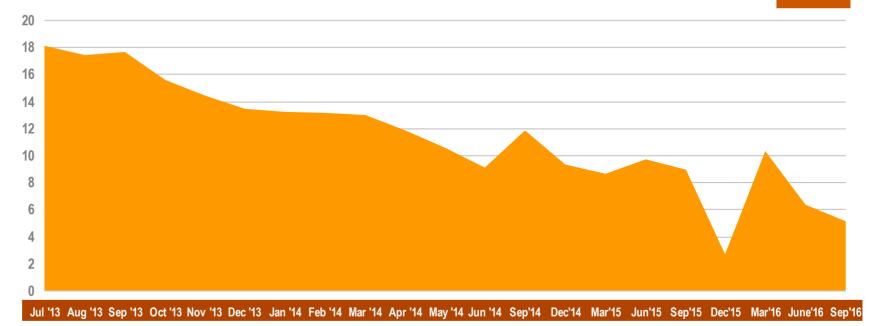

#### Improved safety performance

- Increased focus on risk management and assurance processes implemented
- Board oversight and governance enhanced
- Ongoing initiatives have included further development of safety systems, improved safety leadership and enhancement of safety culture

# 2016 Sustainability Report

#### **ABOUT THIS REPORT**

This is Sandfire Resources NL's (Sandfire or the Company) second Sustainability Report, prepared for our stakeholders in accordance with the Global Reporting Initiative G4 framework 'core' option. The report period spans our financial year from 1 July 2015 until 30 June 2016 ("FY2016") and covers our DeGrussa Copper Mine (DeGrussa) in Western Australia and exploration activities in Australia. In November 2015 Sandfire increased its ownership in North American copper company Tintina Resources Inc. (TSX-V: TAU) to 57 per cent. We plan to report on this emerging operation in the future. Please see our website and accompanying Annual Report for more information about our Company activities.

All dollar figures reported are in Australian currency, unless otherwise stated.

There are no material re-statements of 2015 report data or content

We welcome your feedback on our report. To provide feedback please visit www.sandfire.com.au/feedback For further information on sustainability at Sandfire, please email sustainability@sandfire.com.au or contact

#### **OUR PERFORMANCE**

10.6MW solar power project

capacity May 2016

#### HIGHLIGHTS

HIGH-GRADE Monty copper discovery

PAYMENT TO EMPLOYEES \$35.8M

TAXES & \$51.0M

#### CHALLENGES

NET PROFIT **♣ \$21.0M** (30%) \$48.0M

Continuous safety journey **DON'T WALK PAST** 

Gender diversity plan initiated

Increase Indigenous employment and participation

#### 1 of 10,699 CONTAINERS

We continue to focus on our safety

Due to greater mining depth and the nature of ore being milled

1,617,719 14%1 increase from 2015 86,649 tonnes of CO<sup>2</sup> increase from 2015

Work continues on planning for DeGrussa post mining rehabilitation

# The DeGrussa Solar Power Project – Fully Operational

- ▶ 10.6MW solar power farm at DeGrussa now fully operational
- ► Fully integrated with existing 19MW diesel-fired power station
- > \$40M project financed, developed and operated by international consortium
- ► Establishes DeGrussa as potential world-leading reference site for use of renewables
- ▶ One of the largest integrated off-grid solar power systems in the global mining industry
- ► Expected reduction in CO₂ emissions by 12,000 tonnes per year

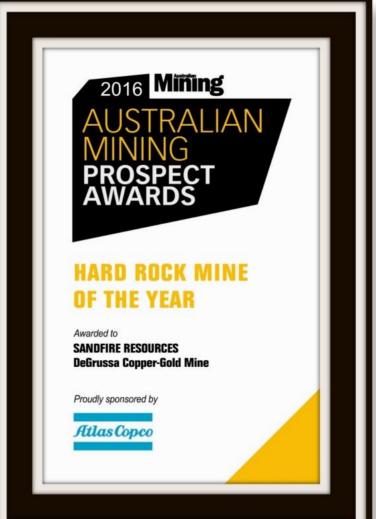

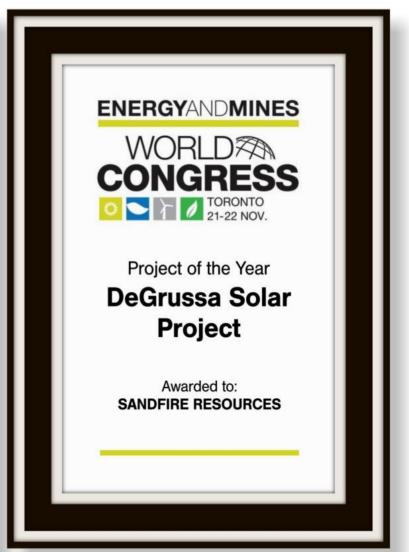

#### **Awards**

# Summary – Positioned for Growth and Success

- Consistent low-cost production
- Strong balance sheet net cash position
- Growing free cash-flows
- ▶ Committed to organic growth via exploration
- Unlocking the potential at Doolgunna
- Developing a growth pipeline for the future

Sandfire is a high-margin, low-cost Australian copper-gold producer, ideally positioned for its next chapter of growth.

### Mineral Resource, Ore Reserve and Mine Plan

Table 1 – December 2015 Comparison of the Underground Mine Plan, Mineral Resource and Ore Reserve

DeGrussa Underground Mine	Tonnes (Mt)	Copper (%)	Gold (g/t)	Contained Copper (t)		ntained Gold (oz)
Mine Plan	8.1	4.4	1.7	357,000	1	443,000
Ore Reserve	8.0	4.4	1.7	353,000	)	441,000
Mineral Resource	7.8	5.7	2.1	443,000		536,000
DeGrussa Underground Mine by Orebody	Tonnes (Mt)	Stockpiles (Mt)	DG (Mt)	C1 (Mt)	C4 (Mt)	C5 (Mt)
Mine Plan	8.1	0.1	0.9	3.1	2.2	1.8
Ore Reserve	8.0	0.1	0.9	3.0	2.2	1.8
Mineral Resource	7.8	0.1	0.9	3.0	2.1	1.7

Table 2 – December 2015 Mineral Resource

DeGrussa Mineral Resource	Tonnes (Mt)	Copper (%)	Gold (g/t)	Contained Copper (t)	Contained Gold (oz)
Underground Mine	7.8	5.7	2.1	443,000	536,000
Stockpiles (Open Cut)	2.9	1.2	1.0	35,000	89,000
December 2015 – Total	10.7	4.5	1.8	478,000	625,000

Table 3 – December 2015 Ore Reserve

DeGrussa Mine Ore Reserve	Tonnes (Mt)	Copper (%)	Gold (g/t)	Contained Copper (t)	Contained Gold (oz)
Underground Mine	8.0	4.4	1.7	353,000	441,000
Stockpiles (Open Cut)	2.8	1.2	1.0	35,000	84,000
December 2015 – Total	10.8	3.6	1.5	388,000	525,000

Refer ASX Announcement "DeGrussa Mine Plan, Mineral Resource and Ore Reserve Update", 14 April 2016
