

**8 March 2013****ASX: WSA****News Release****WESTERN AREAS FINALISES \$125M ANZ BANK FACILITY**

The Board of Western Areas is pleased to announce the execution of a revised loan facility that both extends and enlarges the existing loan facility between ANZ and the Company. The revised facility negotiation was disclosed to the market on 4 December 2012.

The facility will have A\$125m capacity and will extend to at least March 2016. The remaining terms and conditions, while confidential, are typical for this style of banking arrangement and remain materially consistent with the prior facility. Interest rates and fees applicable have been priced at what the Company considers a competitive margin. The facility remains undrawn and the current amortisation profile should maintain sufficient capacity to cover the entire \$110m bond repayment due in July 2014.

Managing Director, Dan Lougher said, "The revised facility will add significant flexibility to the Western Areas balance sheet and give the Company access to a committed line of finance to act on opportunities as they present themselves. Most importantly it eliminates any perceived refinance risk that relates to the July 2014 maturity of the second tranche of convertible bonds."

"The capital management strategy adopted is entirely consistent with previous practice such as the July 2012 convertible bond which was backstopped by an ANZ Facility, but was ultimately retired from free cashflow generation."

"The continuation of the solid relationship between Western Areas and the ANZ clearly demonstrates the ANZ's commitment to resource companies over the entire lifecycle of their developments." Mr Lougher added.
